

**LABRIE**

FINANCIAL INC

**Creating Intellectual Capital  
through Financial Literacy**

## **“I AM GOING TO HELP PEOPLE”**

Those were the famous last words uttered to his mother by owner Devon Labrie when he was just 7 years old.

To this day, he has never lost sight of that compulsion to help, going so far as to giving the last of what he has, so others don't have to suffer. This was his influence to start this 501c3 program, to give back to those who have none.

Everything we do at Labrie Financial has always been with the goal mission of serving the community by doing good for others. The experience that we have acquired in the finance, automotive, entertainment, and marketing industries has provided us with invaluable knowledge. We want to take the chance to provide financial literacy to those who don't have it.....FOR FREE.

We are a nonprofit that specializes in financial education. Our mission is provide education at no cost to better the lives of individuals & families across the country by providing them with the financial tools they need to achieve their goals. To offer greater understanding of our areas of focus, please ask yourself these two questions:

**How did you learn to manage your personal finances?**

**When did you learn what credit was & the impact it plays on your personal finances?**

As you can see, formal education is failing us and now it is also failing our youth. Schools do not provide younger generations with the tools they need to survive in life. You do not learn the importance of credit or how to manage your income in school. We are working around to clock to change that.

Whether it's leaning to save for the future, buying a new car, or preparing to by a dream home, we aim to help those around us achieve those goals.

# WHAT WE OFFER

We offer a wide variety of courses to assist anyone with little to no credit history, employed, and excited to make changes financially. We are proud to provide judgement free, experienced, and empathetic care to set you up for success in the future.
