Civilian Response to Active Shooter Class-April 26: Active shooter incidents are unpredictable and evolve rapidly. Knowing how to respond in the first moments can save lives. This course provides civilians with practical strategies for recognizing danger, making quick decisions, and taking protective actions during a violent critical incident. Participants will learn proven response principles, situational awareness skills, and options for protecting themselves and others until law enforcement arrives. This course is taught by our very own Bret Bartlett, a former law enforcement officer with extensive experience in policing, firearms instruction, and professional training. The class will take place in the sanctuary on Sunday, April 26th from 4:30-7:30PM. The sign-up sheet is on the orange “Connect” board in the main hallway. The fee is \$20 (checks to Ex Umbra Defense Solutions). All fees will be donated back to Harvester!
