Breaking updates

Welcome our BRIDGESCAN!

BRIDGESCAN by ROBOVIS is a portable surface inspection solution engineered to inspect a wide range of surfaces, including transparent materials. It excels at inspecting various surfaces, including transparent materials.

Trusted by automotive industry leaders, our surface examination system ensures defect-free production in bodyshops, paintshops, and assemblies.

Equipped with advanced AI-powered machine vision technology, it offers cutting-edge 3D and 2D assessment capabilities.
