***"I believe we've cracked the COVID-19 code . . . This protocol can save lives."***

Paul Marik, MD

Before Hyperbaric Oxygen Treatment (HBOT), a critically ill patient had been so weak, he couldn't open his eyes, but after ***"He was returned to the ICU, sitting up in a wheelchair, chattering away, with his eyes wide open!"***

Caroline Fife, MD

***"Every substance used in our cohort is either an essential nutrient or an oxidant mediator actually manufactured by the body. Nothing foreign to the body was used, nor anything patentable."***

Brownstein et al.
