AREAS OF EXPERTISE

Oil and gas exploration, exploitation, and development

- Proficient in all areas of upstream oil and gas
- Have supervised the drilling, completion, and production of over a thousand oil and gas wells
- Familiar with industry accepted and customary practices

Gulf Coast, Gulf of Mexico, US shale plays

- Have extensive experience throughout these areas
- Have worked 249 distinct trends, fields and prospects (see addendum)

Operational planning and oversight of drilling programs

- Preparing geological prognosis
- Review drilling procedures
- Adherence to state and local regulations
- Monitoring daily mud logs, directional targeting, MWD, and geosteering
- Recommending specific coring and logging programs
- Interpreting well logs, core analysis, and mud logs
- Deciding on major drilling decisions such as whether to complete a well, sidetrack, or plug it

- Review of completion design and procedures including fracking operations
- Review facilities design including handling of H2S
- Marketing for oil and gas
- Disposing of produced water

Reservoir characterization and reserves

- Making structure maps
- Interpreting faulting
- Assessing stratigraphic continuity
- Generating isopach maps
- Performing petrophysical evaluations
- Determining original and current hydrocarbons in place
- Determining remaining proved, probable, and possible reserves
- Determining remaining number of potential drilling locations including PUD's, probable, and possible locations

Prospect generation, evaluation, and risk assessment

- Generated numerous prospects throughout these basins
- Evaluated countless company and third-party prospects throughout these basins
- Made decisions to drill or not drill them based on the potential reserves, risk assessment and economics

Seismic interpretation (2D & 3D)

- Proficient in 2D and 3D seismic interpretation
- Experienced with AVO and attribute work
- Used SMT and Landmark workstations
- Negotiated seismic contracts

Risk assessment and valuation

- Expert at risk assessment because of unique ability to look at all the variables combined with my years of experience doing the same
- Valuation expert due to critically questioning all the mapping, petrophysical, and reservoir properties needed to calculate the same

Oil and gas leasing

- Have provided oversight for over 1 million acres of leased lands
- Directed the areas to lease based on geology, reservoir conditions, and economics
- Personally negotiated numerous leases, farm-ins, and acquisitions

PROFESSIONAL SUMMARY

Petroleum geologist and executive with over 40 years of experience in oil and gas exploration and development across the Gulf Coast, Gulf of Mexico, and major U.S. shale plays. Extensive experience evaluating and developing oil and gas assets, negotiating transactions, managing multidisciplinary teams, and generating drilling prospects. Has worked in over 249 oil and gas fields and prospects and has direct experience across nearly all major Gulf Coast trends and play types. Currently provides consulting and expert witness services for both plaintiff and defense counsel.

EXPERT WITNESS EXPERIENCE

LEGOIL CONSULTING — Managing Partner (2026 – Present)

- Provide expert witness and consulting services in oil and gas matters
- Available for deposition and trial testimony

PROFESSIONAL EXPERIENCE

LEGOIL CONSULTING — Managing Partner (2026 – Present)

- Founded oil and gas consulting and expert witness firm
- Provide multidisciplinary analysis across geology, engineering, and operations

RECOIL RESOURCES I — Founder, CEO, President (2016 – 2026)

- Evaluated 60+ acquisition and development opportunities
- Grew assets to ~75,000 net acres
- Increased production from ~1,000 to 5,000+ BOEPD
- Led successful divestitures

HALCON RESOURCES — EVP Exploration, COO (2012 – 2016)

- Managed multi-basin operations and exploration teams
- Directed Eagle Ford, Bakken, Utica, and TMS programs
- Grew production to ~41,000 BOEPD

PETROHAWK ENERGY — VP Exploration (2003 – 2012)

- Founding member; scaled company to major producer
- Participated in \$15.1B sale to BHP Billiton
- Led leasing, acquisitions, and seismic negotiations
- Helped assemble ~1,000,000 net acres

3TEC ENERGY — Geologist (2001 – 2003)

- Generated and evaluated prospects across TX/LA

CV - Charles Cusack III, March 31, 2026

- Conducted reserve analysis and deal screening

CALPINE NATURAL GAS — Geologist (2001)

- Evaluated assets and recommended drilling locations

COCKRELL OIL — Geologist (1993 – 2000)

- Contributed to >250 BCF discoveries
- Planned and monitored drilling programs

EARLIER EXPERIENCE

- Amerada Hess (1991–1993)
- Chevron USA (1988–1991)
- Tenneco Oil (1985–1988)
- Gulf Oil (1983–1985)
- Intrepid / Southland Drilling (1979–1981)

EDUCATION

Texas A&M University — B.S., Engineering Geology

PROFESSIONAL DEVELOPMENT

Completed 50+ industry courses and seminars in seismic interpretation, reservoir engineering, risk analysis, and management.

EXPERT WITNESS TRAINING

- How to Start, Build and Run a Successful Expert Witness Practice (SEAK, Inc.) – 2026
- How to be an Effective Expert Witness at Deposition and Trial (SEAK, Inc.) - 2026

PROFESSIONAL AFFILIATIONS

- American Association of Petroleum Geologists (AAPG)
- Society of Exploration Geophysicists (SEG)
- Society of Petroleum Engineers (SPE)
- Houston Geological Society

APPENDIX A – PROJECT EXPERIENCE

Detailed list of 249 trends, fields and prospects available upon request.

CV - Charles Cusack III, March 31, 2026
