## 2 - Reiki Healing course Level I, II & III

Reiki is a natural, simple, safe, effective healing system that uses universal life energy, the energy which permeates our entire universe and all living things.

Reiki is a holistic healing system. It addresses the whole person:

- Physical, mental, emotional and spiritual levels.
- Helps in relieving pain.
- Aids in healing every known physical and mental illness.
- Works on the symptoms and their deeper cause.
- Relieves stress and increases relaxation.
- Balances and harmonizes the function of glands and organs.
- Clears energy blockages and suppressed emotions.
- Balances the chakras.
- Works well with traditional medicine and improves its results.
- Provides limitless benefits of spiritual growth and increases intuition.

The benefits of Reiki are not limited to healing! Reiki can be used on situations, to achieve goals, to overcome obstacles, its uses are endless!

### **Additional Information:**

Universal life energy is called "Qi" or "Chi" in China, "Prana" in India, "Orgone energy", "Bioenergetic plasma", and "Ki" in Japan and this is where the Reiki name derives (Rei-ki means Universal Life Force Energy). Reiki circulates throughout the body and in an energy field surrounding the body.

Recent scientific experiments have verified the existence of this life force energy. Scientists have proven that everything in the universe, at a sub-atomic level, is made up of energy.

HEALTH is the harmonious flow of life energy, while imbalances in this flow (due to unhealthy habits or negative emotions) lead to illness.

Reiki offers personal transformation and holistic health. It starts with giving you deep relaxation. As Reiki helps you heal, it removes stress, and relieves pain. It helps you sort through emotional issues and create spiritual clarity. Reiki does not require a specific belief system or worldview and it belongs to no religion. Reiki used in conjunction with stones or crystals can help balance the whole chakras system and give it a boost of energy.
