

Prayer to Receive Healing

After spending time meditating on God's promises concerning what you need, and after allowing those promises to cause faith to rise up in your heart, pray this from your heart...

“Father, I have found in your word that You are offering me healing. I see now that healing for my body is not something that You will do in the future, but it is something that You have already done for me through Jesus’ death, burial and resurrection. Healing is a part of my inheritance that is mine now because of Jesus. I have meditated in your word, and faith has arisen in my heart! I believe that You want me well and strong right now!”

“So right now, I reach out with the arms of my heart and I lay hold of the healing that is mine, the healing that you are offering me. I take it! I seize it with my heart, and I now have it. Right now, the healing power is working in my body, driving out disease, sickness, weakness and pain! Healing is mine and I am now healed in Jesus name! I have received it and it is working in my body! Thank you Father!!!”

Now that you have it, put some actions to your faith. Act, think, talk and praise God like you have it!
