

XTREME PERFORMANCE

WE USE AUTOMATED MACHINERY & PULSE WELDERS TO FABRICATE OUR STAINLESS 409 TURBO TUBES. THE CUSTOM SHELLS, BAFFLES AND END CAPS ENSURE INTEGRITY THAT IS NOT MATCHED BY A ROLL SEAMED JOINT.

OUR OBLONG SHAPE ALLOWS FOR LARGER INTERNAL TUBES WHICH OUR COMPETITORS CAN NOT ACHIEVE IN A ROUND FORMAT. THIS ALLOWS FOR UNRESTRICTED EXHAUST FLOW WHICH INCREASES PERFORMANCE AND MILLAGE!

USED WITH OR WITHOUT YOUR MUFFLER, YOU WILL BE ABLE TO CONTROL YOUR SOUND IN THE MANNER YOU DESIRE.

QUIET OR SPORTY!
