

INLINE

CONTRACTORS

COMPANY OVERVIEW

Inline Contractors is a full-service civil construction company delivering infrastructure projects across Victoria.

Our crews self-perform earthworks, drainage, underground services, concrete, asphalt, NDD and in-house HDD.

Family owned and operated since 1996, with extensive owned plant and a directly employed workforce.

WHO IS INLINE?

- **Family owned & operated** – Established in 1996 and based in Yarra Glen, delivering civil infrastructure works across Victoria.
- **Full civil construction delivery** – Complete work fronts from excavation and earthworks through underground infrastructure, structures, pavement works and final reinstatement.
- **Licensed drainage contractor** – Stormwater, sewer, water infrastructure, pits, pipework, drainage structures and associated civil works.
- **In-house HDD & NDD** – Horizontal directional drilling, trenchless crossings, vacuum excavation, service proving and potholing supported by our own civil crews.
- **Owned plant & direct workforce** – Multiple units across core plant categories, experienced operators and the ability to resource concurrent work fronts.
- **High-compliance project delivery** – Project management, site supervision, QA, ITPs, safety and environmental controls, survey coordination, redlines, as-builts and handover support.

INLINE OFFERS THE FOLLOWING SERVICES

- Civil Construction & Earthworks
- Licensed Drainage Works

OUR EQUIPMENT

We continuously update and expand our owned plant and equipment to improve onsite efficiency, maintain delivery flexibility and reduce reliance on short-notice hire.

Our current in-house fleet and support capability includes:

- **Multiple Excavators – 2.5t to 20t**
- **Vermeer D20x22 S3 HDD Rig**
- **DigiTrak ARES Locating System**
- **NDD / Vacuum Excavation Truck**
- **Posi-Track / Compact Track Loaders**
- **Backhoe Loaders**
- **Tipper Trucks & Trailers**
- **Articulated Site Dumpers**
- **Hydraulic Breakers & Excavator Attachments**
- **Compaction Equipment & Small Civil Plant**
- **Dedicated Service & Support Vehicles**
- **Site Caravans & Project Facilities**
- **HDD Mud Mixing & Drilling Support Equipment**

We maintain multiple units across our core plant categories and carry an extensive range of attachments and tooling, allowing equipment and crews to be configured to suit each work front.

WHY CHOOSE INLINE?

- Family owned and operated since 1996
- Full-service civil contractor capable of delivering complete civil work packages
- Licensed drainage contractor with in-house HDD and NDD capability
- Our workforce includes experienced and appropriately licensed personnel:
 - RIW cardholders and rail-inducted workers
 - V/Line, Metro and ARTC inductions
 - Experienced excavator and posi-track operators
 - Heavy vehicle license holders
 - EWP-qualified personnel
 - Current First Aid Accreditations
 - Dedicated project supervision, QA and safety support
- Directly employed civil workforce with experienced supervisors and operators
- Multiple units across core plant categories and capacity for concurrent work fronts
- Proven delivery around live infrastructure, existing services and public interfaces
- Strong project management, QA, ITP, safety, environmental and handover systems
- Statewide delivery capability with a strong local base in Melbourne's east and the Yarra Valley
