EMBELLISHING CEILING TILES

"from plain to beautiful in hours."

“ We had a water heater leak on this ceiling and was going to have the sheetrock repaired. I discovered your tiles and decided they would be perfect to solve our problem. We had always wanted a tin ceiling look but did not want the sound disturbance that is common with tin. Your tiles were very easy to install, look great, and no one has even thought to suggest that it is not tin since the house was originally built in 1891. Just wanted to share and thank you for your product. ”
