

100% RECLAIMED TEAK TILE

Frank Tile - Custom Finish

CINTA=LOVE

EnviroTeak's groundbreaking Cinta" Collection has become an industry favorite since we launched the line with Erin Adams in 2014. We named the line after the Indonesian word "Cinta" which translates to mean "Love" -the perfect word to describe this amazing product.

Cinta is a groundbreaking tile and mosaic collection that fuses the freshness of contemporary design with the timeless texture of 100% Recycled Teak.

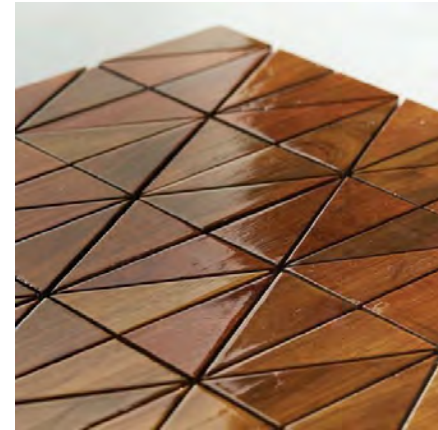

The Cinta line re-imagines what can be done with wood, crafting artistic inventive-ness, shapes and textures that blend to create unique customizable designs. Cinta's broad offering of mesh mounted mosaics and patterns create spaces of warmth and elegance, making these perfect for indoor/outdoor, wet areas and for walls and floors.

Created with love, our hand-crafted Cinta is available as an 8" x 8" Square or 8" x 9" Hexagon mounted tile.

AMY Tile - Style P - White - Matte Finish

WATER PROOF ELEGANCE

Created from reclaimed teak, our first-of-it's-kind, Cinta™ Collection was developed to utilize as much of our reclaimed teak as possible. Born from the pursuit of functional design and zero-waste, our reclaimed teak tiles are unique and perfect for any home or business.

The Cinta™ Collection is also available with an ultra-high-gloss resin finish for wet environments like showers, entry-ways, saunas, back-splashes and outdoor applications.

CUSTOMIZE YOUR INTA TILE

CINTA™ is designed to be a fun, modular product that can be used in familiar or unconventional ways. You can order as it comes or mix it up for a look that is uniquely you. Choose from a wide color palette and different textures and finishes. Any tile can be coated with high gloss resin for water-resistance for wet/dry environments like saunas, yoga studios and backsplash applications. With our different modular patterns, and multiple installation orientations, CINTA™ recycled teal tile will have your creativity running wild.

YOU WON'T SACRIFICE BEAUTY

WE WON'T SACRIFICE NATURE

Each Year 32,000,000 acres of tropical rain forest are destroyed. Architectural Bling believes in protecting and preserving these most vibrant and diverse eco-systems by choosing to reclaim instead of deforest. Architectural Bling's teak partners gives new life to old-growth teak, reclaiming 100-500 year old beams from buildings that are slated for demolition. They buy the wood and send it to their factory where the beams are then handcrafted into the most beautiful, durable and sustainable wood products on the market. The Rainforest Alliance recognizes our teak partners as the forefront leader in the industry, and has awarded them its coveted Sustainable Standard Setter Award.
