with 5-1/2" columns

SP TC-102D

7-3/8" x 3-1/2" x 1-1/4"

works with 7" columns

We have developed several transition collars to minimize the labor involved in connecting our columns with our corbels.

These collars are easy to install and provide a smooth transition between the column and corbel. Please use the lists of corresponding parts to order the correct combination of corbel, collar, and column.

"Some of the transitions will require minor alterations of either the collar or corbel to achieve the optimal fit."
