## An odyssey of service

Working towards the motto of Inner Wheel, "to promote friendship, to encourage the ideals of personal service and to foster international understanding", she has been serving the club for the past 30 years.

If you would like to know the age of this grand old lady, then you just have to keep guessing. Well...she wasn't very comfortable to tell us. "We Inner Wheel Club members never reveal our age," she quips and the other members give an affirmative nod. Perhaps they trail the path of the

In Gujarat, the club had adopted children from eight schools, especially those who had lost their parents in the earthquake.**

film artistes who believe in working without disclosing their age.

Educated as a nurse, she served as the director of an Upper Secondary School in Sweden. Once a paediatric consultant at a university in Sweden, she has worked as the secretary for the Inner Wheel Club twice before becoming its president.

Solveig Svensson, president, International Inner Wheel, speaks to Vidyashree Amaresh while on an official visit to the city.

**T**HERE ARE about one lakh members in Inner Wheel and India is the second largest Inner Wheel country in the world, the first being Great Britain and the third Sweden," she said.

What is the eligibility to become a member of the club? "Inner Wheel club members are invariably the

wives of those in the Rotary. And, of course, not to mention is the service-oriented mentality, which is the most essential quality."

About their projects in Sweden, she said that as the welfare system was high, they had donated 20 sniffer dogs, which were trained to smell drugs. Each dog was worth Rs. 13 lakhs.

This initiative was taken up to put a check on the drugs that were smuggled into Sweden from Poland and Russia.

The project "Meal on Wheel" was meant to provide meals to the poor and the needy.

Conducting health camps, especially for youngsters, was recognised the pressing need and camps highlighting the

need for good health for a contented life were organised.

And for healthcare, trained doctors and paediatricians were sent to underdeveloped countries. Creating awareness on polio and construction of schools were some of the projects for children.

Construction of 'home away from home' for destitute women and orphaned children was high on the club's agenda.

"In India, campaigns have been conducted to create awareness on breastfeeding in the first week of August. Various clubs have also adopted "balwadis" to ensure healthy living and good education for children.

"In Gujarat, they have adopted children from eight

schools, especially those who have lost their parents in the earthquake."

She said the club had been working towards spreading awareness on the importance of good sanitation for a life, fit and fine, especially among rural women.

Recently, the club had donated ten cots to the paediatric ward of the General Hospital in Coimbatore.

Its role in the rehabilitation of mentally challenged had been noteworthy.

Lot of programmes for providing vocational training to the differently-abled and mentally challenged had helped them turn a new leaf.

She said the club had established cancer clinics all over the world besides homes for the hearing impaired and had donated television sets and computers for children hailing from poor socio-economic background.

And about the plans for the future, Svensson said: "We are hoping for a disease-free country. We are to venture into vaccinating children against dreadful ailments. Apart from this, Inner Wheel will strive towards 100 per cent literacy among the masses."

She also expressed plans to set up clubs in places like Thailand, where it did not have one.

Speaking about India, she said she had always dreamt of being here.

"Even though many of my friends wanted to take a trip to the U.S., I had an overwhelming desire to visit India. What attracts me to India are the sarees. I had draped them on last evening when I was out to a party," she said.
