TNS is a quality care program...

Parents who are in tune with what is happening in their child's preschool classroom are better able to establish a connection between what is learned at school and what takes place in the home. This connection is a key component of a child's development and supports further learning.

You have chosen a unique parent co-operative preschool for your child. That means that you, the parents are crucial to the operation of our school, your child's development and our classroom. Not only do we need you to help maintain our low child to adult ratios, but your child wants you in the classroom. Our children are so excited to share their day with you and you get to be directly involved in your child's early education. Being here also provides a special opportunity to bond and create memories with your child.

Thank You! - Bryce, E.J., Joe, Nick, Brittany, Ondrea and Julie for your work on our playground this month. The play fort step, play house and flower beds are looking wonderful!
