The WCF consists of a 50-foot monopalm and an adjacent 405 square foot equipment enclosure at the rear parking lot of the Church. The monopalm houses 12 antennas for Verizon Wireless and has been located on the property since 2013. The monopalm exceeds the 45-foot height limit of the CN-1-3 zone and therefore requires a Planned Development Permit to deviate from the height limit. A Limited Use Permit to allow the use and a Neighborhood Development Permit to allow the equipment enclosure to exceed 250 square feet are also required. The changes proposed to the WCF include additional landscaping and complete rebranching of the monopalm. The drawings and photographic simulations are attached for reference. **15 min**
