WHO WE ARE!

"At MAS, we specialize in trading and manufacturing equipment for restaurants and kitchens, catering to hotels, restaurants, cafes, central kitchens, and confectionery factories. We offer a wide range of products from renowned global brands in the field of restaurant equipment.

MAS is part of a distinguished group of companies, which includes carpentry, a design and implementation company, a manufacturing plant for restaurant and kitchen equipment, and a company specialized in air conditioning. This comprehensive approach enables us to meet market needs and ensure customer comfort.

Our journey began in 2014, and since then, we have continuously strived to provide the best solutions and services to our clients, relying on quality and innovation.

OVERVIEW

MAS KITCHENS has established itself as one of the top leading companies in the UAE. We have been fortunate to have worked on a range of projects across various sectors which have helped us to improve and expand our capabilities. We are constantly seeking new challenges and opportunities to expand our footprint and services further.

We believe that strong relationships are the key to a successful operation. This applies right across the value chain from our suppliers, to our people, to our clients. We take pride in the fact that the majority of our work is with repeat customers as this is testament to the fact that we deliver on our promise. This is based on the fact that we honor our agreements with our suppliers and treat them as partners. Finally, our biggest asset is our team. Investing in their growth, job satisfaction and well being automatically delivers the right outcome without additional effort.

OUR STORY

- MAS Kitchens continuously strives to exceed our customer's needs and expectations by delivering quality interiors, within budget and on time. We believe that collaboration with our clients establishes a sense of trust and transparency which leads to the lasting relationships and repeat business which we have enjoyed over the years. We believe in earning trust through reliability in our promise, quality of our product and operating to the highest level of safety.

MISSION

- at MAS is to lead the industry in providing high-quality, innovative, and reliable equipment for restaurants and kitchens. We are committed to meeting the diverse needs of our clients in the hospitality and food service sectors by offering top-notch products from globally recognized brands. Through our comprehensive range of services, including design, manufacturing, and installation, we aim to ensure maximum efficiency and comfort for our customers. We strive to foster long-term relationships built on trust, excellence, and customer satisfaction.

VISION

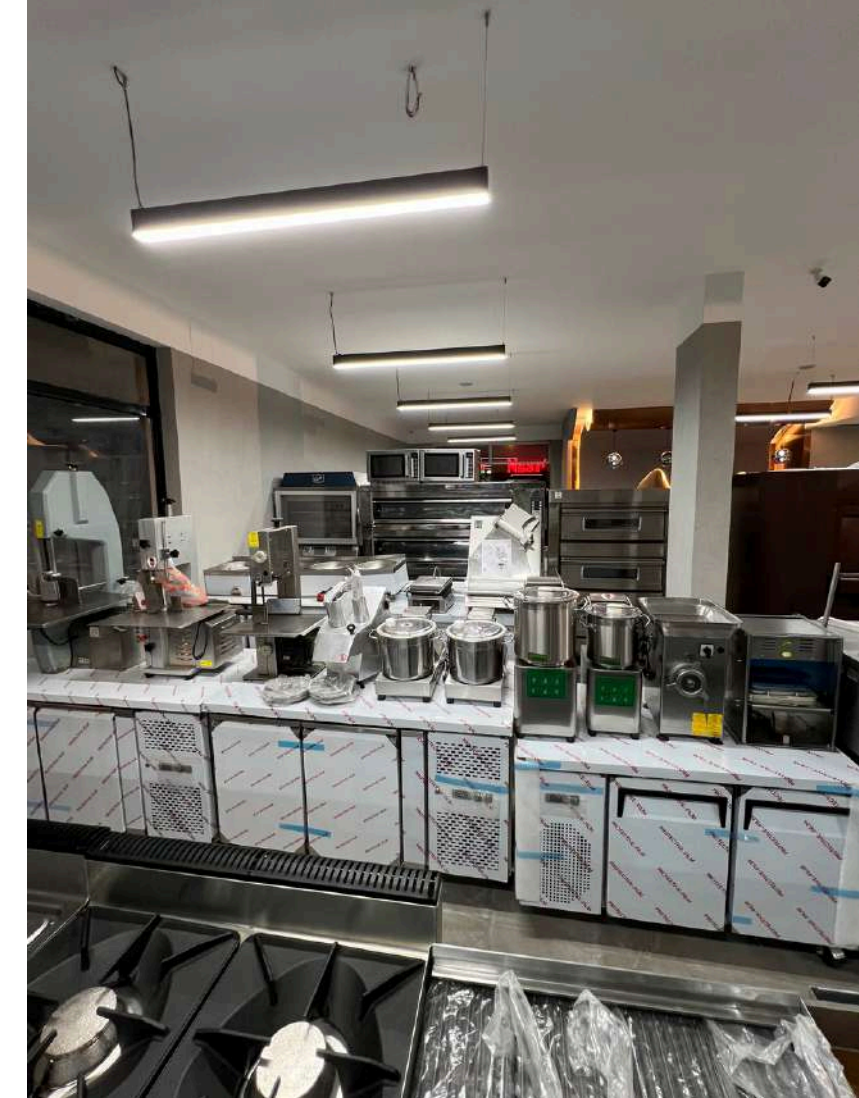

- To be the leading global provider of top-quality, innovative restaurant and kitchen equipment, setting the industry standard for excellence and customer satisfaction.

MAS KITCHENS

SHOWROOM

The MAS showroom features a wide range of the latest restaurant and kitchen equipment from renowned global brands. Our showroom is a one-stop destination for customers to explore and evaluate the best options to meet their needs. We provide an interactive environment where customers can experience the products firsthand and learn about their practical features and high quality. Our professional team is always on hand to offer advice and assistance, ensuring that customers find the optimal solutions for their requirements. At the MAS showroom, innovation meets quality to serve the hospitality industry.

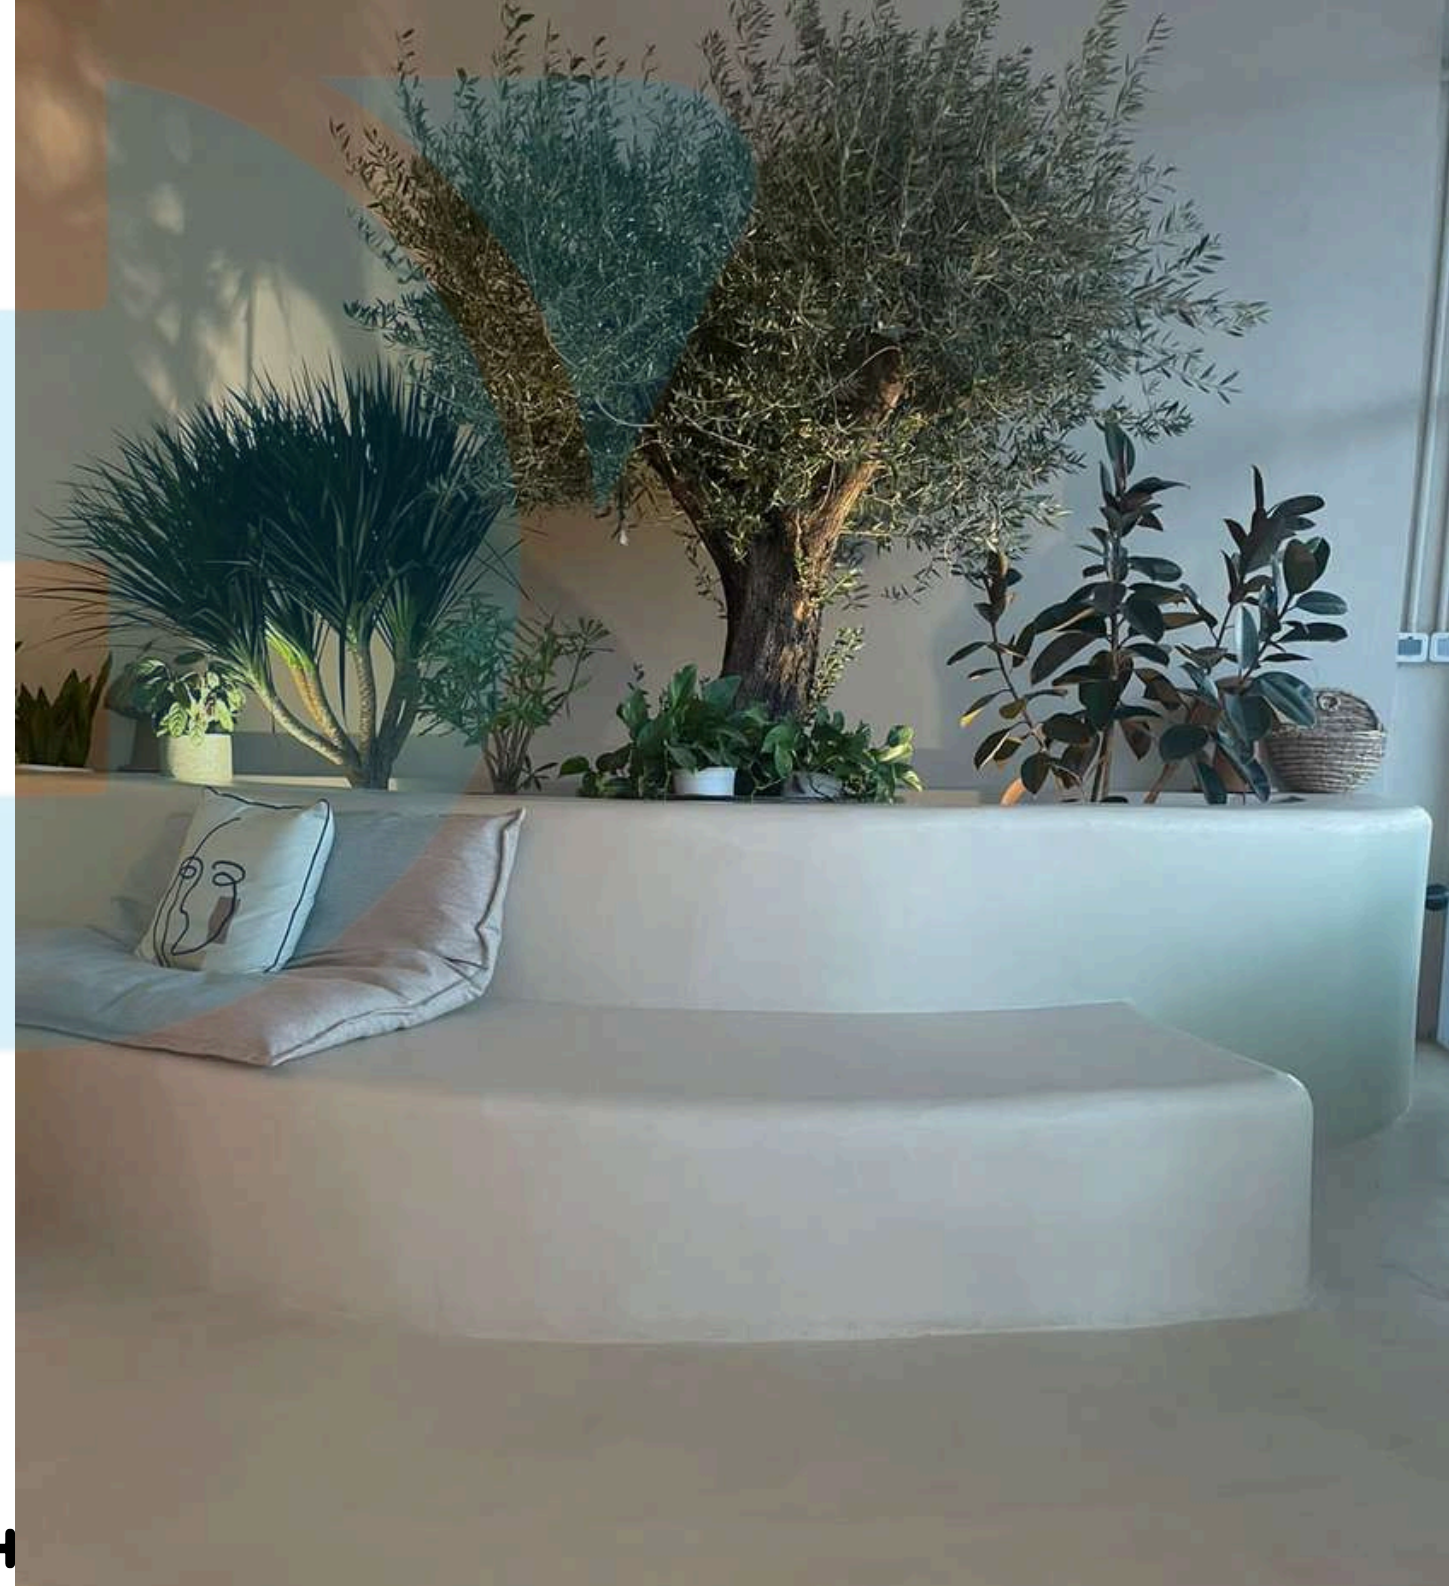

FUTURE PROJECTS

OVERVIEW

FP GROUP

FP Group has established itself as one of the top leading companies in the UAE. We have been fortunate to have worked on a range of projects across various sectors which have helped us to improve and expand our capabilities. We are constantly seeking new challenges and opportunities to expand our footprint and services further.

We believe that strong relationships are the key to a successful operation. This applies right across the value chain from our suppliers, to our people, to our clients. We take pride in the fact that the majority of our work is with repeat customers as this is testament to the fact that we deliver on our promise. This is based on the fact that we honor our agreements with our suppliers and treat them as partners. Finally, our biggest asset is our team. Investing in their growth, job satisfaction and well being automatically delivers the right outcome without additional effort.

GROUP OPERATIONS

FP GROUP

- The FP Group founders have operated in UAE for over 10 years, delivering projects from fit-out in the commercial, retail and residential sectors. We work closely with architects and ID specialists and also provide full turnkey solutions for our clients with design & build packages. The Group contains of a variety of skillsets, including specialists in MEP & architectural design services and this experience provides us with a significant advantage in delivering complex projects for our customers.

DESIGN

- We prioritize 3D visualizing over the typical presentation methods. Along with that, we love to explore cutting-edge materials and technology in our interior designs.

FITOUT

- With 10 years of experience, FP is a fit out solutions contractor. The company's primary objective is to provide sophisticated finishes and custom-made products for different project sectors.

HVAC

- We specialize in the manufacturing, supply, and installation of various types of air conditioning, ventilation, and exhaust systems, ecology solutions. We ensure the highest quality standards in accordance with global standards. Our expertise sets us apart in this field, and we are always committed to achieving the highest levels of performance and professionalism in our services.

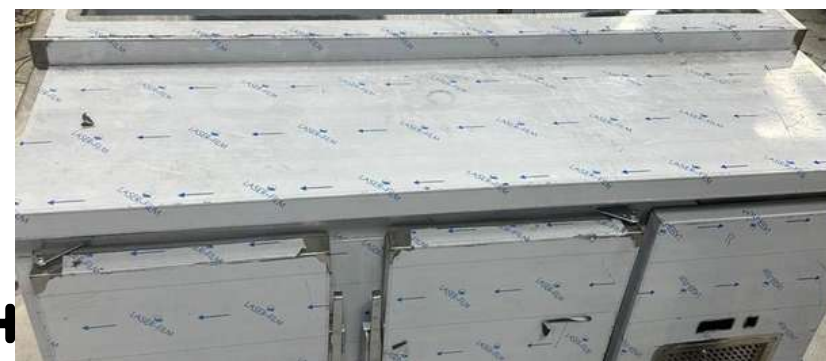

JOINERY

- We have a workshop with skilled personnel in all aspects of interior wood decorations, kitchen work, and cabinets, providing the highest quality.

MAS MANUFACTURING INTEGRATED **EQUIPMENT**

MAS "we are a company specialized in manufacturing and supplying restaurant equipment, including refrigerators, tables, kitchen hoods, and ovens and more... We take pride in offering the highest quality stainless steel products in our manufacturing processes. Additionally, we specialize in trading and supplying equipment from global suppliers, allowing us to meet our customers' needs with a wide range of restaurant equipment.

FP WOODEN INTEGRATING **JOINERY**

FP " has successfully integrated technology into its interior designs and decorating with the purchase of cutting-edge equipment's. A dedicated team of highly qualified and experienced professionals including managers, engineers, designers, draftsmen, site supervisors and skilled factory employees manage these, completely committed to meet as well as exceed the expectations of the customer in every project and to provide quality service.

FP TECHNOLOGY PARITY

HVAC

FP "Our company is a factory and provider of installation and maintenance services for a variety of air conditioning units and air ducts. It distinguishes itself with a specialized team of engineers and professional employees who work at the highest level of efficiency. The company constantly strives for development and improvement of the quality of the products and services it offers, making it an excellent choice for its customers.

In addition, we also offer the service of installing kitchen hood systems. This allows our customers to benefit from comprehensive services that include air conditioning and kitchen ventilation, making us a complete partner for their needs."

PURE SHOWCASE

Selected brands

iCombi® Pro.

The new standard.

The iCombi Pro. This is me.

I'm new. I am experienced, think, learn, forget nothing, watch and adapt. I know the desired result, adapt the humidity, air speed and temperature automatically. Thanks to my intelligence, I will dynamically respond to your requirements. Has the cooking cabinet door been open too long? Is the steak thicker than usual? Are there more chips than the last time? I will automatically adjust the settings and deliver your desired result. Time and time again. With extreme efficiency. After all, that's what my intelligence is for.

➤ What do you get out of it?

All kinds of freedom, and the certainty of reaching your goals. Exactly as you imagine.

rational-online.com/ae/iCombiPro

Intuitive operating concept
The new operating concept runs through the production process with visual imagery, logical work steps and clear, interactive instructions. So that everyone can work error-free from the start.

Cooking intelligence
The iCookingSuite knows the way to your desired cooking result and produces it time and time again. With excellent quality. You can also intervene at any time during the cooking process, or switch from a single, to a mixed load. This is freedom, this is flexibility.
➤ Page 08

Integrated WiFi
The integrated WiFi-interfaces means the iCombi Pro connects easily both to the Internet and to your smartphone in order to connect with ConnectedCooking. For more convenience, security and inspiration.
➤ Page 14

ENERGY STAR® Partner
The key value is energy-efficiency. This is why the iCombi Pro has been tested by the strictest certification programme.

Efficient food production

The iProductionManager plans production processes and indicates which foods are best cooked together. Streamlines processes, saves time and energy.
➤ Page 10

Ultrafast cleaning

A clean unit in approx 12 minutes, this can only be done by the iCombi Pro. Even the standard clean saves 50%* in time and cleaner. Stay clean, less downtime, more productive time.
➤ Page 12

Carefully designed

More fan wheels, optimised cooking cabinet shape, increased dehumidification performance all mean up to 50%* larger loads and even better food quality. For even higher productivity.
➤ Page 06

* Compared to the previous model.

Ready.

For all of your ideas.

Eight customers, eight different dishes. Finger food, tapas, burgers, pizza, chicken wings, French fries. And that's just at one table – what about all the others? The kitchen's running full steam ahead. And so is iProductionManager. Which now prepares different dishes at the same time: Wedges and chicken wings, tandoori chicken and fried zucchini, apple crumble and baguettes. Quick, delicious, stress-free,⁸ even with new or inexperienced staff.

➔ **New perspectives**

Spare the logistical effort, produce the results you want, and give yourself the flexibility to try new ideas.

iProductionManager](https://rational-online.com/us/iProductionManager)

Tip: Finishing

The challenges: Offering a variety of food, having it ready on schedule. The solution: Separate production and service with Finishing in the iCombi Pro. Produce food in advance, chill it in containers or vacuum-sealed, and then bring it up to temperature when an order comes in. For more flexibility, better results, happier customers.
