Riverview Christian Early Learning Center

WELCOME

Welcome to the Pre-School Room. Our overall goal is to create a “home away from home” where your child feels nurtured, loved, and encouraged to learn by participating in many hands-on activities. Our day is filled with opportunities for learning through circle time, movement and music, story time, center time, group activities, and art activities.

God is an important part of everything that we do and learn. Each day we learn more about God by listening to Bible stories, learning Bible verses, and exploring His world through the use of our senses.

Since we know children love to move, lots of dancing and movement activities are planned throughout the day. Many art activities will be integrated into the weekly plans. The process of creating rather than the final product will be the emphasis.

THREES AND YOUNG FOURS

Cognitive Development

Children sort objects by color, size, and shape. They think about and predict cause and effect relationships. Children understand “now” and “later” and understand counting.

Social and Emotional Development

Children use pretend play to understand the world. They learn to share, cooperate, and to take turns and want to experience new activities. Children this age develop friendships and play with other children.

Language Development

Children understand and follow simple commands involving up to three different directions. They remember details, story sequences, ideas, and bits of information learned from books.

Physical Development

Children this age can run well and climb easily. They can hop and stand on one foot. They can draw circles and squares. Children can copy some capital letters and can build block towers with nine or more blocks.
