Dimensions without activity Light on Top

Height = 68 Inches / 172.72 Centimeters
 Width = 24 Inches / 60.96 Centimeters
 Depth = 28 Inches / 71.2 Centimeters
 Weight = 900 lbs. / 408.22 Kilograms

Get faster transactions with your applications. Transactions made with a Bio-Pay Kiosks can cut transaction time by more than half. This increases customer convenience, generates higher user satisfaction, and will cut lines and ultimately allow issuers to serve more customers in a given day.

Customers that use Biometric ATMs in Asia tend to complete one to two transactions more per month than the average. This increases usage, which will drive revenue for issuers, through fees or other services. Our Kiosks/ATM enhance security. ATMs are the primary target of debit card fraud. 85% of U.S. debit card fraud comes from compromised ATMs (*Forester Research).

Unit Shown with Motorized Face Height Adjustment Camera And 10 Fingerprint Capture System

Not shown with Optional Passport Readers

Applications

Government ID Related

- Border Control / Visa on Arrival payment and issuance
- ICAO compliant citizen enrollment
- Courts, Social Services and Law enforcement
- Automation at airport checkpoints
- Food ticket dispensing in refugee camps

Financial

- Enhanced Transactional ATM for banking
- Union membership verification and payments
- International Money Transfer

Healthcare

- Medical registration and co-payments
- Telemedicine automation (Doc in a Box spaces)
- Drug and Opioid Control, traceability of distributions

Commercial

- NFC top-offs for mobile phones or pre-pay cards
- Public transportation recharge stations
- Registration and Age Verification for Gaming

Bio-Pay Kiosks Enable

- Faster transaction throughput when strong ID is needed
- Complete traceability of collected cash
- Multi-Lingual Operation
- Multi-Factor Biometric Authentication
- 3rd Party ID proofing
- Online or offline Authentication using smart cards
- Drastic reduction of debit card fraud (Est. 85%*)
- Stops use of ATM card duplicators
- Halts card sharing by family and friends
- Optional instant card issuance when used with printer sidecar

Overall Benefits

- Throughput and Time Savings
- Convenience
- User Satisfaction
- Higher Service Value
- Increased Revenue

Standard Features

Options

Additional device options are available for Gaming and Telemedicine

Flexible LED Backlit Signage & Branding

22" HD Color Touch Screen

Solid State Drives

Battery Back-up and Power Conditioning

Powerful CPUs for Biometric Processing
