

Mailbox Challenge Announcement

To facilitate the artistic expression component of the mailbox Challenge, it will be necessary for you to send a description and digital pictures of your prototype to the Challenge coordinator Alisa Barber (barbera@duvalschools.org) no later than midnight of January 28th.

Please provide the following for your team's submission:

1. Name of your School (MS or HS)
2. A description of how you employed your design elements to represent that theme of the challenge (no more than one page, 12 point font, Times New Roman, double spaced).
3. Images of your mailbox in JPEG format (windows compatible)
4. Provide a directory of the images which should be arranged logically and included in your one page description.
5. The image should be about 600 pixels so that the image is visible from all angles of the monitor

Please remember that the design component represents almost 50% of your score, if the design is not received on time those points will be forfeited for your overall score.
