### Skin Healing for Warriors

Through Oncology Training, we provide proper techniques and processes for caring for those in cancer treatment.

Faces on Main provides a safe environment for those dealing with cancer and beyond. This facial addresses the specific needs and concerns of people undergoing all phases of cancer therapy, as well as recovery and survival, and is customized every step of the way. A safe and soothing treatment to help recover your appearance and manage and improve the changes skin undergoes during and after cancer therapy, with the added healing benefits of touch and modified lymphatic drainage, provide a feeling of peace and relaxation. The use of safe, non-toxic, gentle and healing products help your skin regain a healthy feel and appearance, leaving you looking great and feeling better.
