## DID YOU KNOW...

- ...1938 is the last time Congress passed a law regulating the cosmetics industry.
- ...26 seconds is all it takes for the chemicals in your skincare products to enter your blood stream.
- ...Only 11 ingredients used in skincare and cosmetics are currently banned or restricted by the U.S. Food and Drug Administration. In comparison, the European Union has banned 1,328 ingredients that are known or suspected to cause cancer, genetic mutation, reproductive harm or birth defects. *\*Source: Campaign for Safe Cosmetics*
- ...287 harmful chemicals were found in the umbilical cord blood of newborn babies linked to skincare and cosmetic products, many of which are known to cause cancer. *\*Source: EWG*
