SUBJECT: Customer Database – Thank you

Dear Mr. Vaisler,

We would like to thank you for the successful and fast completion of the customer database project.

The database you developed for us stores our critical customer information and is the key tool for our day-to-day operations due to its useful and clear reports. Your attentive and patient listening and analysis of our needs resulted in a database that is fine-tuned to the dynamics and characteristics of our business. It helps us to improve our operations and grow faster.

With your project-rate proposal we knew upfront what would be our total investment and we did not have to worry about being charged by the hour; you have been responding effectively and promptly every time we contacted you.

It was a pleasure to work with you and we will feel very confident to work with you in the future and recommend you to others.

Sincerely,
Hanna & Amir Sraibman
