## Car Of The **MONTH**

1959 Goggomobile T-400 Sunroof Deluxe  
Owner Tim Carlson

It was spring of 1967 and I was standing, with a couple of buddies, at a window of the library on the second floor of Washington High School (Sioux Falls SD) over looking the faculty parking lot. Looking down, we all laughed at the "little red car" in the corner of the lot. It was a perfect spot for that car because no other car would fit there. The car was owned by one of the teachers, Mr. Robert Parlett. In June of that same year I was with a buddy going west on 41st street and there was that little car in the lot of Soo Import, the VW dealer. I told my buddy to turn around so we could check it out. Yup, sure enough Mr. Parlett had traded it in for a bigger car....a Volkswagen. A couple days later I burrowed enough from my Dad and became the proud owner of my first car, a 1959 Goggomobile T-400 Sunroof Deluxe....yes ... that "little red car". The Goggo is powered by a 2 cycle—2 cyl—400 CC motor. Power is going to the rear wheels through a 4 speed Electromagnetic Perselective Gearing transmission. That was June 20, 1967. I still have the bill of sale. Little did I know then that I would still own it 54 years later and the changes it would go through. If my Goggo could talk it could probably tell a few stories....I guess I'm lucky it can't....I might have to plead the 5th. That was many years ago and since then the Goggo has seen very few driven miles and a few different garages, storage shed and warehouses for safe storage. That was until just a few years back when my son Jason and I decided to either get it running and drive it as is or get to work on a full restoration. I didn't take long to decide to go for the restoration. And now thanks to Jason, Barry Dohrmann (Dohrmann's Custom Automotives), John Trutwin (JT Upholstery), Dan, Rick and Mike (Midwest Motor Sports) and UWE Staufenberg (my German parts supplier) my Goggo is back on the road better than new. However, now it is no longer the "little red car"....it is now the "little BLUE car". Thanks for voting for my Goggo for the 2022 calendar. Tim Carlson.

## President's Report

Hi Everyone, It is May and hopefully winter is behind us and we can start enjoying our summer toys. (However, as I write this on April 25th., there was a little snow on my car this morning!) Dennis and I did meet with the Next X guys, and had a great discussion on website up-dates and different things we can do on line. We are moving ahead with our up-date plans, and with this Dave Dickson has decided to retire as our Webmaster and let someone else work with the up-dated site. I thank Dave for all of his work with our website and as our club photographer for many years, his service to our club is greatly appreciated. Our board is planning to work with the Next X guys in getting our new site up and running. If you or someone you know, would be interested in managing our website going forward, please let me or a board member know. Also, since Dave is still in quarantine due to Covid, we are looking for someone to take pictures at our club events. Again, if you or someone you know would be interested in being our club photographer, please let us know. I'm continuing to work on getting more awareness of the Pan car, it's history and our club out to the general public. I have a list of Pan car events in the Siftings that either we have already scheduled or are working on scheduling for this year. I will keep you all up-dated on these events and, some will involve participation of other club cars as well as the Pan. As I stated in our general meeting, we need help from other club members to work with the Pan at these events, since the car is the club's and these are club events, not just Pan committee events. Your help with this is appreciated. As far as the question on Pan insurance goes, Dennis did confirm that any member 25 years old or older with a good driving record can drive the Pan or trailer it. For trailering the Pan, your vehicle needs the proper towing equipment. Tina has done a good job of getting our mailing address issues corrected with POS and our list of people for the electronic Siftings established. As we stated in the last general meeting, there are some issues with our membership form and we are working on up-dating it. Watch for an up-dated version in future issues of the Siftings. A question was brought forward about what age should the cars be that are listed in our club roster. Please see the separate notice in the Siftings for what was decided by the board in our April meeting. Duane Gilleland has agreed to host our May 12th. meeting at his facility in St. Joe. again, this year, and Roy Bernick has also agreed to host our June 9th. meeting at his facility. Please check out the separate meeting notices for addresses else ware in the Siftings. Also, please be sure and thank both of these gentlemen for their hospitality when you see them. It is a great benefit for our club to have members like Duane and Roy that host our general meetings and share their great collections with the rest of us. Enjoy the vehicles God has blessed us with and have fun in our hobby!

### **Sauk-Rapids/Rice Middle School Car Show**

901 1/2 St S, Sauk Rapids, MN 56379

May 20, 2022 9:00 AM to 12:00 PM. Southwest parking lot. 4 groups of students will be visiting the cars with their Social Studies teachers. Each group will have about 90 students. Each group will have approximately 35 minutes to view the cars. The Social Studies teachers teach about how the assembly line made cars affordable and truly changed American culture. They have included the Pan Motor Company over the past 3 years as well. They also teach about car culture in the years after WWII. They have expressed interest in having around 20 cars that represent these time periods, essentially from the turn of the century through the 1960's. If you would like to show one of your cars at this event and share it with these middle school students please contact Beth Reimer at [bethreimer73@gmail.com](mailto:bethreimer73@gmail.com) or call her at (320) 267-0192 after 3:30 PM. She will let the Social Studies teachers know the make, model and year of the cars that will be at the show so they can give their students an opportunity to explore them online before coming to the show.

## Your Vice President Roger Holt

**WHAT IS A COLLECTOR CAR?** The question was brought forth inquiring how old should a vehicle be in order to be considered a collector and included in the listings of our club roster? It was noted that we have some later model vehicles listed and should they really be included, since our club's name indicates antique autos? First let me say that there are very few true antique autos in our club, so we need to look past that word, but how new should the vehicles be? This was a subject of discussion at our April Board Meeting, and the Board agreed we should be following the guidelines for the state of Minnesota for qualifications of a collector vehicle. Minnesota statute 168.1 states a collector vehicle is at least 20 years old and goes further with three sub divisions a vehicle may be considered as if older than 1949: Pioneer, Classic and Street Rod. Also, the statute does have one exception for vehicles less than 20 years old and that is if they had a production number of 500 or less, they can be considered collector vehicles. These guidelines will be our club policy going forward, as established by our club Board of Directors. I feel the Board's decision is in line with the original intent of the club when it was formed and we will be reflecting our club's established principles. If you notice that any of your vehicles have been omitted from the roster, please be sure to add them back in when they are 20 years old. If you have proof that yours qualifies as a limited production vehicle, please bring it to the Board for review and approval. Thanks for your understanding and cooperation with establishing these guidelines for our club. **Bob Halliday your Club President**

## Car Show Chairman Report

**Hello Everyone**, I think winter is over and spring is here, according to the calendar at least. Trying to stay positive....the weather will warm up and car show season will be here. I'm looking forward to the Spring Extravaganza Car Show and Swap Meet held at the Minnesota State Fairgrounds Sunday May 1st. For me, that's the start of the season! ++ On to our car show, things are coming together but I have a lot to do before it gets here. I do have flyers available to anyone that wants them for distribution. I have dropped off flyers to various businesses throughout St. Cloud (mostly auto parts stores) as well as to high schools along with this year's Youth Award application. When doing so, I had mentioned the "new this year" valve cover races and many thought this was a cool idea. Hopefully this will bring in new people to our show. Thanks Steve Wendt for working this, I know that Rick Gayken doesn't need you in the show car area ☐. If anyone wants to help with the valve cover races, please see me or Steve Wendt. We also are looking for anyone who wants to donate, lend, or help with building valve cover race cars for the show. If interested, Jim Stodolka is looking for a member or two to watch over the Pan Cars in the Ice Arena during the show to answer questions, etc. ++ Car Show t-shirts and crewneck sweatshirts are on order. See elsewhere in the Siftings for further details. I was promised by the printer I will have them for our May General Meeting. ++ Cheryl Voigt had five extra workers t-shirts that were handed out at our April meeting to those that needed one, if anybody else is needing a worker's shirt, please see me so that I can work out an order by July 1st. Again, if anyone has a workers shirt in good condition they are not using, please bring them to the next general meeting to pass onto others. ++ As mentioned above, the Youth Award for 2022 is out on the streets (first time since 2019), applications due by July 25th . ++Bob Halliday and I had met with members of the Next-X Car Club back at the end of March to discuss our website. It was a very constructive meeting, and we will continue in this effort. Bob will be setting up another meeting with them soon. Thanks Bob for taking this on. We are in the digital age and progressively advertising our show through our website and other social media platforms will, if not already, be surpassing other methods. ++ At the time of this writing, if weather prevented us from doing our "Trash and Dash" event on Saturday April 30th, we will hold it on Saturday May 7th . ++ The Pan Committee will be looking for members to pull the Pan Car trailer to events throughout the summer. Bob Halliday has been tracking these events and other requests as they come up. If interested, you can contact anyone on the Committee for more information. ++ I still have can koozies from our 50th Birthday Party free for all members who didn't get one, and 50th Anniversary Window Stickers are for sale at \$1 each. ++ Remember...If you have a project you are working on, recently finished, or intend to do, please write an article along with photos to Jim Zwilling. Would love to see your story. That's all I have for now. **Thanks and remember to.....enjoy the ride!**
