# About us

**Walt Mahaffay**  
Owner and CEO

Grundy Supply specializes in high-performance automatic floor scrubbers designed to deliver superior cleaning efficiency. Our specialty ride-on scrubber sweepers sweep, scrub, and dry floors in a single pass—maximizing productivity while minimizing downtime.

We rent, lease, sell, and repair floor scrubbers across 30 states, offering comprehensive in-house service and support. With no third parties involved, you work directly with our experienced team from consultation to maintenance.

**Lynne Mahaffay**  
Co-Owner and Office Manager

With over 30 years of expertise in the floor maintenance industry, we also provide professional consulting on proper floor care and refinishing techniques. Our knowledge spans terrazzo, wood gym floors, and VCT, helping facilities protect and extend the life of their flooring investments.

In addition to equipment solutions, Grundy Supply offers a complete line of janitorial supplies, paper products, cleaning equipment, and professional-grade cleaning chemicals. We proudly serve schools, universities, hospitals, factories, warehouses, nursing homes, office buildings, and restaurants.

**Paul Phillips**  
General Manager and Logistics

# Ride-on scrubbers

---

## A CT51-71 XP50 Walk-behind

CT51 is an innovative walk behind scrubber designed to provide total control over the cleanup work. This industrial floor cleaning machine ensures maximum productivity: up to 3150 m<sup>2</sup>/h, while the 3.5 hours of battery life allow you to work continuously and without interruption. Available in 4 options: 20" disk; 28" disk; 14" x 20" orbital; and 21" cylindrical.

#GS-20

---

## B CT80

The CT80 is sized for jobs that require the productivity of a riding scrubber but the maneuverability of a walk-behind. The CT80 is one of the smallest rider scrubbers on the market—it can fit through door frames and hallways and features a comfortable ride-on design.

#GS-21

---

## C CT110

The CT110 is a compact rider with a 25-gallon tank size to offer much higher productivity than other rider scrubbers in its range. It can clean up to 45,000 ft/hr to reduce cleaning times for larger jobs. The CT110 combines high cleaning productivity with easy operation in a compact ride-on platform.

#GS-28R

D

**D CT160**

The CT160 automatic scrubber is designed for commercial and light industrial cleaning applications. The 36" cleaning path, quick connect brushes, and intuitive controls make the CT160 one of the simplest and most productive ride-on scrubbers in its class.

- #GS-28RL
- #GS-CYL36

E

**E CT231 Cylindrical**

The CT231 has a 42" cleaning path and 57-gallon tank with a max productivity of over 80,000 ft/hr, making it ideal for large manufacturing, logistics and specialty facilities. The cylindrical option allows the CT231 to sweep, scrub, and dry in a single pass to reduce labor time.

- #GS-42

We offer comprehensive equipment sales, rentals, and leasing, with all maintenance and repairs performed by our in-house service team.
