

# ClearWeave **Inclusive**<sup>SM</sup>

## Neurodiverse Employment Support

### **Improve your Diversity & Inclusion programs via Neurodiverse employment.**

ClearWeave **Inclusive** can help you effectively employ and on-board individuals on the Autism Spectrum. It takes unique skills to accomplish this process and ClearWeave has perfected them.

### **Full Consulting Support.**

We can support you through the process – from interviewing to on-boarding to maintenance. We can train your interviewers, supervisors, and act as a third-party facilitator in the background to ensure success and find areas of growth for your neurodivergent team-member.

### **Why employ an individual on the Spectrum?**

Boost your organization’s internal performance and increase your brand value – internally and externally.

A neurodivergent individual will bring your organization unique value:

- Unique neurodivergent problem-solving viewpoint
- Extraordinary attention to detail
- Loyalty to company / its mission
- High performance in repetitive tasks

## **Our Process**

We can support you throughout the three stages of neurodiverse employment.

**Training modules available individually or by category.**
