

MLPC Annual Meeting & Vote

Meeting started: Aug 31, 2024, 2:50:59 PM

Meeting duration: 42 minutes

Meeting participants: Chas Frank, Moon Lake, Priscilla Frank

[View original transcript at Tactiq.](#)

Highlights

- 06:19 Moon Lake: Please. He? what he Yeah. Yes. you know, that makes Donated this place to us this morning, grateful for support. Um, before you started, okay. Probably you don't hear in this event. Not good, but make sure you know, you can come on over and ask anything that you concerns that you want to bring up the board. Feel free to text me, one of the United over, and you may our president and then our Vice president, these are They're actually the important book and I'm sorry. Material. And yeah.
- 08:06 Moon Lake: very, To, that's it. They've done a few more important for those. Are coming.
- 16:43 Moon Lake: So it's, you know, we pick the stuff that we thought would be the most popular. So how They likely have it and I can get it and figured for you, like any slips stuff in the Colony Season College. Okay. All right. So next up. Yes, we mentioned. The calendar again. September 15th is last for pictures, and then you'll see from us. My goal is October because I won't have what I had to do last year. To get that done.
- 20:08 Moon Lake: any old pictures, they come out pretty well nowadays with the phones and we can load them right up. So Facebook Social Media. I did create a YouTube page to go with our new website, because our goal is to record all of the new meetings and put them on there.
- 27:30 Moon Lake: okay, don't even Yeah, yes. You, and then, Deadline workers. Exactly, in a different amount this one that we Northern New York community station on Chris called and talked to them. And they told us that

they felt that this one that we're gonna apply for.

- 31:06 Moon Lake: This is northwestern gasket, it's got candy and cheese and syrup and popcorn and Jams. All right. this is for, Susan Smith online. Yeah. All Right. just, Oh yeah, that means. Yeah. But Exclusion Smith will reach out to you. The reality. But that. All right, just number two, he's JK Roadhouse, sweatshirt and \$50 gift card. S. All right. for me, you should break this little Exodia Good example. All right, so number three.
- 32:20 Moon Lake: Is what? Fathers ice cream donated, pizza and wings. You want to prevent name, grab one ticket. We got.

Transcript

00:00 Moon L.: Describe.

00:26 Moon L.: Thanks. How are you ask me? just, You hear us?

01:22 Moon L.: all right, let's say How many people would be working after I interview the introduction?

05:18 Moon L.: Facebook. That's not good.

05:53 Moon L.: Which he considered the clients.

06:01 Chas F.: Have a sprite. Right. You done. Okay. That's great. If there's

06:19 Moon L.: Please. He? what he Yeah. Yes. you know, that makes Donated this place to us this morning, grateful for support. Um, before you started, okay. Probably you don't hear in this event. Not good, but make sure you know, you can come on over and ask anything that you concerns that you want to bring up the board. Feel free to text me, one of the United over, and you may our president and then our Vice president, these are They're actually the important book and I'm sorry. Material. And yeah.

08:06 Moon L.: very, To, that's it. They've done a few more important for those. Are coming.

08:37 Moon L.: Done. increased users on Facebook, we have And we have around a great and he the Facebook preservation cap. But I mean Billboard The intention was to make that like a total Facebook platform and we have over 100 people or I think because of me, but that's really great. And we founded our final one in

format for 24. And we started a calendar program for some 24 countries here. He will be rolling upside down here.

09:29 Moon L.: Compares to our 2023 compared to the

09:55 Moon L.: mains when they were doing something.

10:02 Priscilla F.: Okay, there we go.

10:04 Moon L.: Your favorite flower? Y, we've partnered with that, we've donated with us for those who aren't preparing a good person coming really information. We've put out a new And retired users and quantity so that from exponentially and we've got notification for another day. Exactly. That there was a second funding, um, bring up for moonly that program covers. And I thought it was taking a very accepting system and into the government to what is amazing about it.

10:54 Moon L.: Okay, just reach out, I think that's a great thing, you know. Over, you know, decade both their leads. Up. Parent, those two people. One is the Junos that are here today and also the Gokeys. Those two have both been approved.

11:34 Moon L.: the survey for everybody, you Have the rapper. And then when created a crazy website Here. for us, we're attractive. for recreation, with much already supported And that everything is done about this point for major milestone. For painting project or priority for partnering with C just and their help with their singing group. You'll be able to advise us on what we focus on and what you want to be, you know, which he should be going after you and how much better people.

12:44 Moon L.: Following that we're partner with a couple of great program over the foundation. And okay, you see when we get back home early going to pay for that. And will be able to probably 25 dollar commission running time. And then 30. we're changing their meetings quarterly, which I see I'll do, oh my big high level of visible. Oh engineers. Okay, Treasurers reported. Yeah, oh yeah. So and we are doing well and we are keeping our expenses down the best we can we had from our products on Campaign Press.

13:49 Moon L.: We have only gotten back three dollars and 64 cents so far. This year. It's not a whole bunch but they give us a portion of the sales, but I think they wait until there's a certain amount of sale before they deposit. You had some money come in this spring from last year's matching donations, that was so 435

from Verizon. Thank you. Darren for helping us do that. On, we have raised. Let me see my numbers.

14:20 Moon L.: Of two dollars at our two different ice cream social and then we raised another \$302 since our last ice cream social cash. With towards these baskets, then we raise 1,083 on zephe for these beds. So, if the \$300, Which is very much every just so, you know, they were all donated and if we were to have bought these items, it would have cost us of 850 dollars.

14:54 Moon L.: So we doubled what it would have cost so amazing job. Thank you so much for the support. Right. That is epic rest. Oh, He had a friend who generously Marion. I'm sorry. Can you come over here? So just go online when you're better. Yeah. But Through a designer who generously donated three. Really lovely. Those. We've got those all loaded up onto cafe. So if you do want, like free bag or T-shirt or sweatshirt or any here, that's all available cafe press.

15:46 Moon L.: They did a funny little switcheroo for us and change the URL without tongue. So if you go to one of the don't don't use one of the flyers, if you got flyer don't use the link in the flyer. Check Facebook or check the website. That'll have the most up-to-date URL that gets you to a landing page and then you can drill into the different logos to take a look.

16:11 Moon L.: And if you they have sillions of different items, if there's something that you want, it's not on there. I can, you know, as long as it's a normal regular product, let me know and have it to the shopping cart or the basket. So that you said, so just let me know. Nice. think in particular, Because literally it's just thousands of product. S. But you have to actually make sure each one sits correctly.

16:43 Moon L.: So it's, you know, we pick the stuff that we thought would be the most popular. So how They likely have it and I can get it and figured for you, like any slips stuff in the Colony Season College. Okay. All right. So next up. Yes, we mentioned. The calendar again. September 15th is last for pictures, and then you'll see from us. My goal is October because I won't have what I had to do last year. To get that done.

17:13 Moon L.: So October you should be seeing news come out about the, the calendar, I'll do a PDF so you can see the pictures and and what the cost will be. And we'll get those out to you again. Good Christmas present for anyone who's,

you know, here or not here. Next is C slap Mom and I have done a number of sea slap, we just finished a C slap round number six. We have two more to go this year.

17:39 Moon L.: Next year, we did here from Nifola that it is for samplings are free this this coming one, it's included part of New York State so we no longer have to pay three hundred and something dollars out to get the water tested and they feel for is more than enough, which with three years of data, we were going to go down to four anyway. So we no longer have to use our funds to do that. So that's pretty awesome.

18:13 Moon L.: You have Nightfall is New York State Foundation Federation of laying up. But she's not. I know it's that bowl and see slap. So, so we'll have this year's results. Usually early spring. Sometimes they can give us a little hint in January of what how bad it's looking. But basically we're staying pretty steady of crappy water. Like, since 99, so nothing really new there. Um, As far as the website goes.

18:48 Moon L.: So they've mentioned that we did put a new website together Short name, much simpler to put in Moon Lake PC for preservation, council.com, you can also put Moon Lake Preservation council.com If you, that's what you remember, it will still bring you to our page. Um, I am definitely put it together, but I really rather not manage it. It's not something that I'm looking to continue to do.

19:18 Moon L.: I'm calling out for volunteer, Anybody who wants to help maintain would be awesome, Please let us know. That would also be Facebook if we could get your help on that or whatever, you're willing to do. As far as I'll show some media pages, go any help would be greatly appreciated, but super excited. You should be able to everything. Is clickable any of our sponsors that gave to us this year? Help us in any way.

19:41 Moon L.: You can click on their little picture and it will bring you to their page. So you can have their updated information and continue to support them, so, that's pretty awesome. A lot of great information. We are looking for history. If you have Shares or anything that you have going on in from history or current, we can add that to our history page because I think it's awesome.

20:02 Moon L.: And lots of people like to know about history of Moon Lake. So, please share take a picture of

20:06 Priscilla F.: the lake was high with all the rain

20:08 Moon L.: any old pictures, they come out pretty well nowadays with the phones and we can load them right up. So Facebook Social Media. I did create a YouTube page to go with our new website, because our goal is to record all of the new meetings and put them on there.

20:29 Moon L.: So, if you miss one, you can always check back for the last month. And this one, this one will always be on there, but that's another page on the website, so look for that as well, but YouTube does it for free. Once you upload it, we don't have to pay for space, which is something I'm loving finding out all these free things for our non-for-profit that we've we've created. So I think that does it for me. Next is questions, comments.

20:59 Moon L.: Anything. Anybody online.

21:08 Priscilla F.: that effect, any of the sample you guys were doing,

21:11 Moon L.: No, we have to actually make a note on every sample that we do that.

21:17 Priscilla F.: Right.

21:17 Moon L.: What level the lake is at. So if it's low, or if it's high, we we notate that. So, they know and we also notate every time we do, if we've, you know, as we all know, we've had a ton of rain this year and so when we had that three inches of rain, we actually notate it on the sample that we've had exponential amount of rain or storms or what have you.

21:41 Moon L.: So they really have a better understanding why things might look a little different. Than normal on those on those samples. Good question.

21:52 Priscilla F.: Yeah, cuz like because when I was up there we're going to come up today Okay. but I had to go like I rolled my ankles so I couldn't go to the urgent. Care is The we with the bilfoil. What's going on? I missed the first part of the meeting because I was on my car in my car. So the milfoil, the chemical treatment is how what's the process for that to get that done? Besides much.

22:18 Moon L.: Companies say Yeah the company's name is Miller Turf and they're out of Belleville and they actually sprayed

22:24 Priscilla F.: Okay.

22:25 Moon L.: already over to Hide Lake and they've had good success but it's very expensive. It costs highly \$18,000 which we don't are anywhere near that

number that's why we're looking at grants.

22:36 Priscilla F.: Okay.

22:36 Moon L.: And we don't know if we would have to match so we could, you know, be out a ways. Unfortunately if we weren't able to You know, get enough from our it

22:47 Priscilla F.: Right.

22:47 Moon L.: might take us a little while to come up with it. We don't have the number for Miller's turf yet. They were here on August 1st.

22:53 Priscilla F.: Right.

22:53 Moon L.: Survey, the lake, they're gonna let us know. They said it should be manageable the actual, it's a herbicide and it's called pro for CR like that.

23:02 Priscilla F.: Right.

23:02 Moon L.:

23:04 Priscilla F.: Yeah.

23:06 Moon L.: And very safe. It's supposed to be safe and only take care of the milfoil is, the Procore is, but there's another lake

23:13 Priscilla F.: Right.

23:13 Moon L.: that I read about was Lake, Luzerne, which is over near Lake George and they do the same thing.

23:19 Priscilla F.: Yep.

23:20 Moon L.: It cost them over 150,000 to treat that lake.

23:23 Priscilla F.: What's a much bigger lake than Moon Lake?

23:25 Moon L.: so,

23:25 Priscilla F.: Moon. Lake's like what?

23:26 Moon L.: So it, you know, we've got to see

23:26 Priscilla F.: He's

23:28 Moon L.: what it's gonna turn out for us.

23:30 Priscilla F.: Yeah.

23:33 Moon L.: We don't know yet and we hope another week or so and put a note on the right or something to me and then it's me. Yes, yeah.

23:42 Priscilla F.: That that's like an annual treatment to do for x number of years.

Versus

23:47 Moon L.: No, when they treat it only lasts for three years.

23:50 Priscilla F.: Okay, so

23:50 Moon L.: It's a what country and one dreams

23:53 Priscilla F.: Once every three years.

23:53 Moon L.: years?

23:55 Priscilla F.: Okay, so

23:57 Moon L.: if they spot tree from, What I did say.

23:59 Priscilla F.: this video don't do a total because it's a little do, all the fingers in the lake wherever they see milfoil, when they did the survey,

24:04 Moon L.: Well, they treat the worst areas, so they're gonna say okay, you've got one, two or three areas and they're gonna treat those areas, but it seems

24:10 Priscilla F.: Right.

24:10 Moon L.: to flow throughout the lake and treat the whole lake and clean up the lake. So if anybody has a chance to go over to High Lake and see that, it looks like we're they said it's they're very satisfied with the treatment with three days, they said they saw the difference. So

24:25 Priscilla F.: Oh, okay. So

24:26 Moon L.: It, it seems Yeah, so it's a quick acting.

24:29 Priscilla F.: So there.

24:29 Moon L.: Also, just so you brought up the lake level. One of the residents had spoken about in years past, we had a fever fever band. Yeah. Or rather a beaver dam.

24:43 Priscilla F.: Right.

24:46 Moon L.: On the outlet blocking and it they used to just call the town. I don't know if that's true or not, but I did call the town on Friday and ask them to lead us in the right direction, if it's them. Can they take a look? Can they open it off? Whatever they have to do, it may not be a beaver dam, I'm not really sure, but it's the water levels staying high and that is some well on unusual in part because we've had a lot of rain, but I don't know why.

25:15 Moon L.: We haven't received some of that water, so I did bring that up to the town and I'm waiting for a call back. So, the other thing to beaver, beaver huts, or if you finding, we're having too much trouble with beavers, we can call the dece and get a nuisance permit. And they, they can advise us, who

25:34 Priscilla F.: oh,

25:36 Moon L.: would come in and help us remove beaver, dams. So the PC can help us with not being

25:39 Priscilla F.: Cool.

25:40 Moon L.: put or beaver huts, they can help remove the beavers if we get to men.

25:42 Priscilla F.: Right.

25:43 Moon L.: We got.

25:45 Priscilla F.: Now, somebody told me I land over there is for sale. You know where the Marsh area is that that was or something I that somebody told me that I didn't I didn't get

25:54 Moon L.: Okay.

25:56 Priscilla F.: chance to see on any real estate listings at that was the case. so, I didn't know if that's, you know, Poundland or is that, that's private land, where the road is between

26:07 Moon L.: What in the bay next to you?

26:09 Priscilla F.: No, no, because we're on the other end. No. The other way like where we're Moon Lake Road comes out to Oxbow Road.

26:15 Moon L.: Okay.

26:16 Priscilla F.: That's where that's usually the outlet.

26:18 Moon L.: Yeah, it is.

26:20 Priscilla F.: So I know, but years ago, they had done some excavation to reopen the stream, but when I was up there, The last trip up there when I drove it was like, you know, the with lake being high and see much water flowing anywhere. So that was kind of

26:31 Moon L.: But what we did notice is on both Great. sides, whether it's under the road per se, if it's in that culvert.

26:39 Priscilla F.: Yeah.

26:39 Moon L.: It and the lake side where the Martians plus on the outlet into Roaming Creek, both sides look the same level.

26:45 Priscilla F.: Right.

26:45 Moon L.: So to me, there wouldn't be a beaver dam in there. If it's both the same level.

26:50 Priscilla F.:

26:50 Moon L.: So, I don't know if there's any

26:51 Priscilla F.: So, because

26:52 Moon L.: beaver dam underneath that one at this point, but it could be further downstream and Rosemont Creek. That's keeping our water high, we don't know, we have to have them, you have to call the town of Antwerp and have them look into it. Well, like I said, we'll see what kind of three success and if they point me to somebody else, I'll make the next call and we'll see what we can do.

27:09 Moon L.: Whatever that, whatever that turns

27:10 Priscilla F.: Okay.

27:11 Moon L.: into.

27:13 Priscilla F.: Yeah, because we have a link that really doesn't turn over. That's the thing, it's just flow. It has an outflow but it doesn't really turn over like other likes to. So it's kind of

27:22 Moon L.: Yep. And that's part of the reason why we want to keep that open if we can help, make sure it at least turns over like it normally does.

27:29 Priscilla F.: Yeah.

27:30 Moon L.: okay, don't even Yeah, yes. You, and then, Deadline workers. Exactly, in a different amount this one that we Northern New York community station on Chris called and talked to them. And they told us that they felt that this one that we're gonna apply for.

28:09 Moon L.: There's an application November 1st that he's going to put in for us. We don't know the dollar amount, we don't know. They told us that that we would Qualify for that one. One of our other residents did offer to do, Grant writing for us. When we do have a grant that we want, he is willing to write it for us, so that's awesome. Which is hard to find those type of people so we have one. Yay. The volunteer.

28:40 Moon L.: Anyone else? Any other questions, comments? Difficult. For you. Well, that's That's a new program for us to have the whole thing transcribed for us. Thank you. All right, so um today opens the voting for the board. Anybody want to volunteer for any position that is listed or any new one that you want to take on because you love it, whatever something you're willing to donate your time for whatever that might be, we are paying for that.

29:29 Moon L.: So um, if you are interested in position, right, do the right in, on

the, on the boat, the boat is digital. Um, on the website is literally a button that says Vote like that. It'll bring you to survey monkey fill that out. And we close that in one week today. So, next Saturday, I will close will announce the winners, which you're looking at them, if no one, if no one volunteers.

29:59 Moon L.: So Um so we'll we'll post that information next. Probably next Sunday after devoting poses and if no one has anything else then we will draw the winners of the raffle baskets. Oh wait, before we do anything more

30:16 Priscilla F.: oh,

30:18 Moon L.: did everybody that is present here in person. Put your name in for the lovely fruit. Tart that Miriam has donated Any last minute, raffle entries? All right. And the winner of the raffle, the fruit part is crazy. Nice. all right, so I, I can't, right. raffle basket. But she shake up our tags in so One is the is the country. I'm not country time. The coach nor you don't have lemonade, there's no lemonade in there.

31:06 Moon L.: This is northwestern gasket, it's got candy and cheese and syrup and popcorn and Jams. All right. this is for, Susan Smith online. Yeah. All Right. just, Oh yeah, that means. Yeah. But Exclusion Smith will reach out to you. The reality. But that. All right, just number two, he's JK Roadhouse, sweatshirt and \$50 gift card. S. All right. for me, you should break this little Exodia Good example. All right, so number three.

32:20 Moon L.: Is what? Fathers ice cream donated, pizza and wings. You want to prevent name, grab one ticket. We got.

32:52 Moon L.: here is the same cooler from The visit were okay. If you want to plug, But then you gotta give it to me. That's one, just one. No vegan. No. Vegans eat. Thank you so much. This is namely no nothing Nancy color. But 37, we're going places, right? You name, for Route 37. 11. If you fold out of this one, Okay, okay. Double shuffle. What? And Joe Campbell you. Alright, number 15 here. You don't want to do okay.

34:33 Moon L.: south of us Now something that people know the It's for the white or in white, maybe he was fired, antibiotics, one more. Please, thank you. very, Number seven is Dark Island. Distillery \$25 gift card. This is from here. Thank you. Okay. Happy days. I know, I just wanted you. But something fine. Oh, you're jingling room right? One more. Not one more. Oh yeah. just did well, you

Seven to seven. Yeah, seven two.

36:16 Moon L.: We're going to call see, it was probably one of the ice and socialists. Oh yeah. It's um training. Yeah. all right, so this is Any golf in a couple of songs? Great Number 9. Remember no? it's This is not Nancy Butler. Oh, she put a lot of tickets in just a lot. I wrote them off. if this one is what number 10, number 10 is judges, Any good sunglasses and that one will last you. Number 11 is the coffee basket. And Miriam made.

37:41 Priscilla F.: Nice.

37:41 Moon L.: together, you Pulling a name. something you Get into the number. We have. Okay, we can get anything. He has possible. Well, that's good. Now don't need some popcorn and I threw in the candy. So we got a snack basket. You just pick one whichever one. He picks off the floor is the winner, but You need any money? This one. Nancy, come here you are. this is, You three hundred dollars. Very excited about winning these. He told me. I agree. Okay. One. Hey, ask them.

39:31 Moon L.: Here for the Darling, 10 by 10. Um, yeah, maybe easy up here. It's in my truck. It's not in here because I wasn't here. If somebody was a year to get out, Don't take it down a little bit. Okay. With this in, you can get afterwards and get it out of the truck. and last but not least, Coyote Moon, there are Wait a number of things correct, that's right. Alrighty. Perfect. And Nancy Kyle.

40:31 Moon L.: Now he's All. Through. Yeah, well, I got it. Yeah. Yeah I didn't mean any last, that's first. That's that's guys. Our next meeting is um September the 17 Tuesday and September. So not the I heard about the night. The second Tuesday. So yeah, so that's seven o'clock. No. We it's not zoom. It's Google Google. Sorry. It's There, it's not. Um, at seven o'clock. Appreciate your participation. Yes, we understand. It's the holidays. So we did stick to less than an hour. Thank you Chuck.

41:46 Priscilla F.: Okay, thanks for all you do.

41:46 Moon L.: Thank you. It's very feels better, but we went online.

41:51 Priscilla F.: Yeah, I rolled it because I rolled it because we're getting Harvard fourth. Put in and where the two floors this up for, right the wrong time. Okay.

42:04 Moon L.: Some.

42:06 Priscilla F.: Yeah, I'll be up there later today. Is it raining up there?

42:14 Moon L.: Oh sorry.

42:16 Priscilla F.: Okay. Super thanks.
