

Physiotherapist – Established Clinic

Existing Patient Demand & Growth Opportunity

\$1500-\$3000/week – Independent Contractor Split Fee

Complete Mobility Chiropractic is looking for a motivated and personable Physiotherapist to join our growing multidisciplinary clinic.

This is a unique opportunity to become the first physiotherapist at CMC and help establish and grow physiotherapy services within an already established clinic.

We currently have an existing patient base with patients actively asking about physiotherapy and looking to incorporate physiotherapy into their care. Rather than starting from scratch in a brand-new practice, you'll have the opportunity to build your caseload within a clinic that already has patient demand, established systems, and opportunities for internal referrals.

We are looking for a physiotherapist who is excited about having some independence and taking ownership of the physiotherapy side of the clinic.

This position would be ideal for someone who wants the freedom and flexibility of working as an independent practitioner without the added responsibility and expense of opening their own clinic.

What We Offer:

- Established clinic with an existing patient base and demand for physiotherapy
- Opportunity for internal referrals and collaborative care
- Your own private treatment room for one-on-one treatments
- Flexible schedule with the opportunity to grow your hours
- Established online booking and clinic systems through Jane
- Part-time front desk support
- Professional, welcoming and established clinic environment
- Support from the clinic owner in building and promoting physiotherapy services
- Equipment, as approved, to set up your individualized treatment space and support your practice

Who We Are Looking For:

We're looking for someone who is professional, positive and comfortable working independently and managing their patients from start to finish.

As a multidisciplinary clinic with independent practitioners and individual schedules, there may be times when you are the only practitioner in the office. You should be comfortable treating your patients, processing billing, managing bookings through Jane

when needed, and handling the normal responsibilities associated with your own caseload.

At CMC we work together as a team to help manage incoming calls and day-to-day clinic needs, alongside the support from our part-time front desk staff. While independence is important, we are still very much a team. We have a friendly, relaxed and supportive clinic environment, genuinely enjoy working together and make time for staff dinners and occasional get-togethers outside of the clinic.

What We're Looking For:

The ideal candidate is:

- A registered Physiotherapist in good standing and eligible to practise in Ontario
- Fully insured and able to practise independently
- Professional, reliable and patient-focused
- Comfortable working independently and managing their own patients
- A strong communicator who works well within a multidisciplinary environment
- Interested in building and growing a physiotherapy caseload
- Excited about being the first physiotherapist in the clinic and helping develop this area of the practice
- Interested in establishing a longer-term relationship with the clinic
- Comfortable treating a variety of musculoskeletal and rehabilitation concerns
- Committed to providing an appropriate number of weekly hours over days, evenings and some weekends in order to establish and grow their caseload

Experience is an asset, but we are also open to new graduates who are motivated, confident working independently and excited about the opportunity to build their practice within an established clinic.

Why Join CMC?

This is more than simply renting a treatment room.

You'll be joining an established clinic where patients are already asking for physiotherapy services. You'll have the opportunity to introduce physiotherapy to an existing patient population, receive internal referrals, build your own caseload and have input into how the physiotherapy side of the clinic develops.

As your schedule and patient base grow, we want to grow and invest in the service alongside you. CMC is a locally owned clinic that cares just as much about our team as we do about our patients. We're looking for someone who shares our values, brings a positive attitude to the clinic and is committed to excellent patient care, open communication, professionalism and contributing to a supportive and welcoming team environment.

If you're looking for a clinic where you can have independence, build something of your own, and still be part of a supportive multidisciplinary team, we'd love to hear from you.

Please submit your résumé along with a brief introduction outlining your availability, experience and what you're looking for in your next clinic opportunity.

We look forward to meeting you!
