NEW DROUGHT GUIDELINES AND RATES

The board has drafted a new policy for the district. Please see the attached:

Conservation Guidelines and Drought Surcharge Rates

THE WATER DISTRICT IS STARTING A STORAGE TANK REPAIR AND INSPECTION PROJECT THAT WILL CONTINUE FOR THE NEXT 2 WEEKS.

Phase I Water Conservation

will continue during the project and will be reviewed at the 9/20/18 Board Meeting. The District has 6 storage tanks with nearly 0.5 million gallons of water storage. 1 – 2 tanks will be drained at different times, so we ask the community to continue conserving during the project.

We appreciate everyone's efforts to conserve water while we improve our storage system.

Please Contact the Water District immediately in case of a water leak.
