March 2019**

Our Most Important Resource

**Please Contact the Water District
immediately in case of a
water leak.**

Water Leak Update

We are happy to report that 2 leaks have been found, are being repaired, and the tanks are refilling.

There have been 4 leaks since 1/1/2019. Many of these leaks could have been repaired earlier if water issues had not been dismissed. **We need your help** – please report any water that you see even if you think it might be run-off. It is important for us to check on each water situation so that we can catch things in the early stages.

A big THANK YOU to our customers who have helped by conserving water. With your help we were able to avoid another loss in pressure this week.

District Operations Manager

We are very happy to have our new Operator, Michael Wolf, on the team. He is doing a great job learning our treatment and distribution systems. Michael brings a lot of experience and expertise to IHWD. He looks forward to getting to know our customers and hopefully relocating to our wonderful community.

If you see Michael in the white District truck, please say hello or give him a wave.

Randy Evans Retiring

After 46 years to the day, Randy will be retiring at the end of March.

To help Randy celebrate, we are planning a party on Friday evening 4/5/2019. Please watch for details posted online and at the post office. Come help us say thank you to Randy for his years of service.

Congratulations Randy – we wish Randy the best in this new chapter!
