CROCHET GUIDE

A step-by-step crochet guide which used along with the tutorial is a great option for beginners.

ABBREVIATIONS

MR - magic ring (adjustable ring)

CH - chain

SC - single crochet/US (DC/UK)

tog - together in the same stitch

Inc - increasing round

TENSION

Tension is not critical for this project but it may affect the cord quantity required.

INCREASING ROUNDS

To make your bag bigger, you need to use a stitch sequence that increases the overall number of stitches in the each round. To add more increasing rounds to your project, try adding one individual SC/US (DC/UK) more for each subsequent round.

For example:

Round 9 - **5 SC**, 2 SC tog x 10 [70 SC]

Round 10 - **6 SC**, 2 SC tog, x 10 [80 SC]

Good to know

To avoid cord tangling, please pull the cord with "start here" tag on or unravel your skein first.

Some tips to keep in mind while making Ally Bag:

- » working with medium tension will help to maintain its shape,
- » following the tutorial carefully and printing the written instructions
- » using the stitch markers or a piece of cord to keep track of your rounds and stitches (you can also tick number of stitches on printed pattern)

It is possible to modify the size of the bag by increasing or reducing the number of increasing rounds. If you're feeling adventurous, you can even add your own creative touches to the design and share it with us on Instagram or Facebook.
