Teach them how to cook the fish.
Then serve it up to community.*

ABOUT US :

OUR STORY

We have lived experience. We are people in transformative recovery from homelessness, substance abuse, and incarceration who harness our superpowers to help others. Think of us as a conduit: We get resources of wealth and abundance to those that need it the most.

OUR MISSION

We cultivate multi-generational hope, health and healing for the most disinvested communities by thoughtfully listening. We meet people where they are at, then gently usher them to somewhere better. It's not your better. Or my better. It's their better.

YOUR HELP

We need sponsors and donors to support our culinary training program taught by a professional chef educator while cooking 500-1,000 meals/wk for community. We tackle hunger at its core by providing lifelong job skills so people are never hungry again. And unlike other programs, our student chefs get paid while also doing purposeful service work.

- Have your leadership team prepare a team meal with Chef Jeff, a professional chef and educator trained at Wolfgang Puck Chicago.
- Rent out the whole dang Tiny Diner for a private and unique shin-dig!
- Or let's brainstorm other fun with purpose. And meals with meaning.
