- The flexibility and ease of online learning in a straightforward web portal.
- Fun and engaging content to prepare you for real-life experiences.
- High pass rates.

Enroll in our state-approved online course today and **launch your healthcare career** from the comfort of your home...

Engaging, Online Certified Nurse Assistant Training

With Red Cross Blended Learning, you gain the real life skills needed to become a CNA at home and at your own pace...

Unlike other CNA curriculums, Red Cross Blended Learning helps future CNAs not only acquire the skills needed to be successful in their jobs, but to also gain an understanding of the emotional and social aspects involved in their careers.

Follow a new CNA in a Hollywood-quality film as she works with different residents with different personalities and health needs, utilizing a case-study approach to learning.

The curriculum helps prepare well-trained, empathic CNA professionals like you for real-world experiences, while also improving pass and completion rates.
