

Music Therapist – Part-Time Contract / Long-Term Coverage

I am seeking an experienced **Music Therapist (MTA)** to take over approximately **12 hours per week of established music therapy contracts**, with the potential for a long-term arrangement.

This is an excellent opportunity for a therapist looking for consistent, established clinical work without having to build a caseload from scratch.

Geographic Region

Contracts are located throughout:

- **Hamilton**
- **Burlington**
- **Oakville**
- **Caledonia**
- **York / Sims Lock**

Because the caseload involves travel between multiple community-based sites, applicants **must have their own reliable vehicle and a valid driver's licence**.

Clinical Settings

The current contracts include:

- **Long-Term Care**
- **Group homes supporting adults with Autism and developmental disabilities**
- **In-home individual music therapy** with clients with Autism and other developmental delays

The work includes both **individual and group music therapy sessions** across multiple locations.

Hours & Compensation

- Approximately **12 clinical hours per week**, plus travel
- Estimated contract value of approximately **\$750-\$1,000 per week**, depending on scheduling, travel and mileage arrangements
- **Mileage compensation can be negotiated**
- **Paid training and orientation**
- Established clients, programs and contracts
- Opportunity for a **long-term, consistent caseload**

Qualifications

Required:

- **MTA – Music Therapist Accredited**
- Current **membership with the Canadian Association of Music Therapists (CAMT)**
- Must carry **your own professional liability insurance**
- Must have **your own reliable vehicle** and valid driver's licence
- Ability and willingness to travel between sites throughout the Hamilton, Burlington, Oakville, Caledonia and York/Sims Lock areas
- Comfortable working independently in community-based settings
- Experience supporting individuals with diverse communication, cognitive and developmental needs
- Professional, dependable and able to maintain established relationships with clients, families, staff and facilities

An asset:

- **Registered Psychotherapist (RP)** or qualifying/eligible for registration with CRPO
- Experience in long-term care, dementia care, Autism and developmental disabilities
- Experience facilitating both individual and group music therapy

Availability

The position is **available immediately**.

I am specifically looking for someone interested in **long-term continuity**, rather than short-term or occasional coverage.

A detailed orientation and **paid training period** will be provided to support a smooth transition with clients, families, staff and facilities.

Internship Opportunities

Music therapy internship opportunities are also available for suitable students seeking supervised clinical experience in these populations and settings.

Internship inquiries are welcome separately from applications for the MTA contract position.

To Apply

Please send a brief introduction and résumé/CV outlining your:

- Music therapy education and MTA status
- Current CAMT membership
- Current RP/CRPO status, if applicable
- Relevant clinical experience

- General weekly availability
- Location and ability to travel between sites
- Earliest available start date

Students interested in an **internship placement** are also welcome to inquire and should include information about their music therapy program, internship requirements and anticipated placement dates.
