Insect Screens

For the insect screen options available with the patio door of your choice, see your Andersen dealer or visit andersenwindows.com.

Warranty

Andersen patio doors are covered by our exclusive Owner's Choice® limited warranty. Most other patio door warranties end when a home is sold. Our coverage is 20 years on glass and on hardware parts — in completely interchangeable form — even if the new home, wherever it is sold, is covered. The coverage offers full benefits year after year, owner after owner, so it can add real value when you decide to sell your home.

Performance

Andersen patio doors and windows are designed for maximum energy efficiency. In fact, they can double your home's air seal or better than the patio screen door.

Finally, with the patented **SMART**® air seal designed to put new energy into your home on windy days, you help protect the environment.

Andersen is the first window and patio door manufacturer to be certified by Green Seal, the independent, nonprofit organization dedicated to protecting the environment by promoting the manufacture and sale of environmentally preferable consumer products.

Check the optional Transmission Rating Control seal before you buy. The seal is the U-factor, the one you'll spend heating and cooling. The seal is the only real gas coefficient, the one you'll spend cooling and heating.

Learn more at www.ANDERS.COM or call 1-800-451-1000.

Standard and Custom Sizing

Standard sizes of Andersen® patio doors fit most new construction, remodeling and replacement rough openings. In addition, virtually any combination of height and standard stock door dimensions is available. For a custom size for all patio doors, contact our 200 Series Inswing door. For measuring instructions, log on to andersenwindows.com.

TO DETERMINE ROUGH OPENING DIMENSIONS, add 3/4" to the width and 1/2" to the height of the unit dimensions shown below.

ANDERSEN® 400 SERIES FRENCHWOOD® GLIDING PATIO DOORS

Width and height in unit dimensions.

Additional Convenience

Auxiliary lock locks

are available for all gliding doors and provide an extra measure of security when the door is in a locked position. Available in finishes that coordinate with hardware.

Exterior keypad locks

are available for all patio doors. For Frenchwood® hinged patio doors, you can add an optional handle extension kit that allows clearance for interior blinds and shades.

Dark or maple thresholds

are available for finishing the interior of the sill on most patio doors.
