

# Regional Transmission Expansion Plan (RTEP)

## Window 3

The proposed MPRP was conceived as part of PJM's Regional Transmission Expansion Plan (RTEP) Window 3 for the 2023/2024 cycle. Here are the key dates and milestones associated with this window:

1. **Opening of Window 3:**

- **February 24, 2023:** PJM opened RTEP Window 3, inviting proposals from transmission developers to address identified transmission reliability needs.

2. **Closing of Window 3:**

- **May 31, 2023:** The window for submission of proposals closed. PJM received a total of 72 proposals from various entities, including incumbent transmission owners and independent developers.

3. **Shortlisting of Projects:**

- **October 3, 2023:** During the Transmission Expansion Advisory Committee (TEAC) meeting, PJM presented a shortlist of projects from the submitted proposals, identifying those that were most likely to meet the identified system needs.

4. **Final Project Selection:**

- **October 31, 2023:** PJM planned to present the final selection of projects to stakeholders at the TEAC meeting. These projects would then be recommended to the PJM Board of Managers for approval.

5. **Board of Managers Approval:**

- **December 2023:** PJM anticipated that the Board of Managers would review and approve the final set of projects recommended from Window 3, enabling them to move forward to the implementation phase.

The total value of the contracts awarded under PJM's RTEP (Regional Transmission Expansion Plan) Window 3 was approximately \$5 billion.
