# CAPABILITY STATEMENT

---

## INTRODUCTION

Coffs Coast Traffic Solutions (CCTS) is a locally owned and operated traffic control business with a proven track record of delivering safe and reliable traffic control services. With depots in Urunga and Grafton, operating from coast to country, CCTS are certified to work on all roads.

With over 25 years of industry experience, we specialise in providing traffic management solutions on regional and TfNSW (Transport for New South Wales) roads. We can provide traffic management solutions for all your construction needs, such as works on roads, footpaths, new builds/housing estates, bridges, asphaltting and events.

Our company is dedicated to supporting various clients, including local councils, Tier 1 and 2 construction and infrastructure projects.

CCTS prioritises safety, employs highly skilled, local staff, and delivers services with a personal touch.

# SERVICES OFFERED

## TRAFFIC CONTROL PLANNING

We offer comprehensive traffic control planning services tailored to the specific needs of each project.

Our expert team analyses traffic flow, designs efficient traffic management plans, and ensures the smooth and safe movement of vehicles and pedestrians.

## TRAFFIC CONTROL IMPLEMENTATION

CCTS employs experienced local Traffic Controllers with a dedicated Team Leader efficiently implementing traffic management plans on-site.

They utilise industry standard equipment to effectively manage traffic, ensuring the safety of workers, motorists and pedestrians.

## TRAFFIC CONTROL EQUIPMENT

We provide a wide range of high-quality traffic control equipment, including signs, barriers, cones, portable traffic control devices and visual message signage (VMS). Our equipment meets Australian standards and is regularly maintained to ensure reliability and compliance.

## TRAFFIC MANAGEMENT CONSULTANCY

With our in-depth knowledge and experience in traffic management, we offer consultancy services to assist clients in developing effective traffic control strategies, ensuring compliance with local council regulations and industry standards.

CCTS has a dedicated Traffic Manager and Designer who can help from consultation to completion of Traffic Guidance Schemes (formerly TCP), Vehicle Movement Plans and Traffic Management Plans.

# KEY CAPABILITIES & INDUSTRIES WE SERVICE

## TRAFFIC CONTROL SERVICES

- We are registered with TfNSW for Category G Provision of Traffic Control
- Our team is experienced in delivering comprehensive traffic control solutions for various projects, ranging from small-scale roadworks to large infrastructure developments.

## REGIONAL AND TfNSW ROADS EXPERTISE

- With a focus on regional and TfNSW roads, we have in-depth knowledge of the specific requirements, regulations, and standards set by these authorities.
- Our team is highly experienced in working with road networks, ensuring compliance with all necessary protocols and regulations.

## SUPPORT FOR LOCAL COUNCILS & COMMUNITY

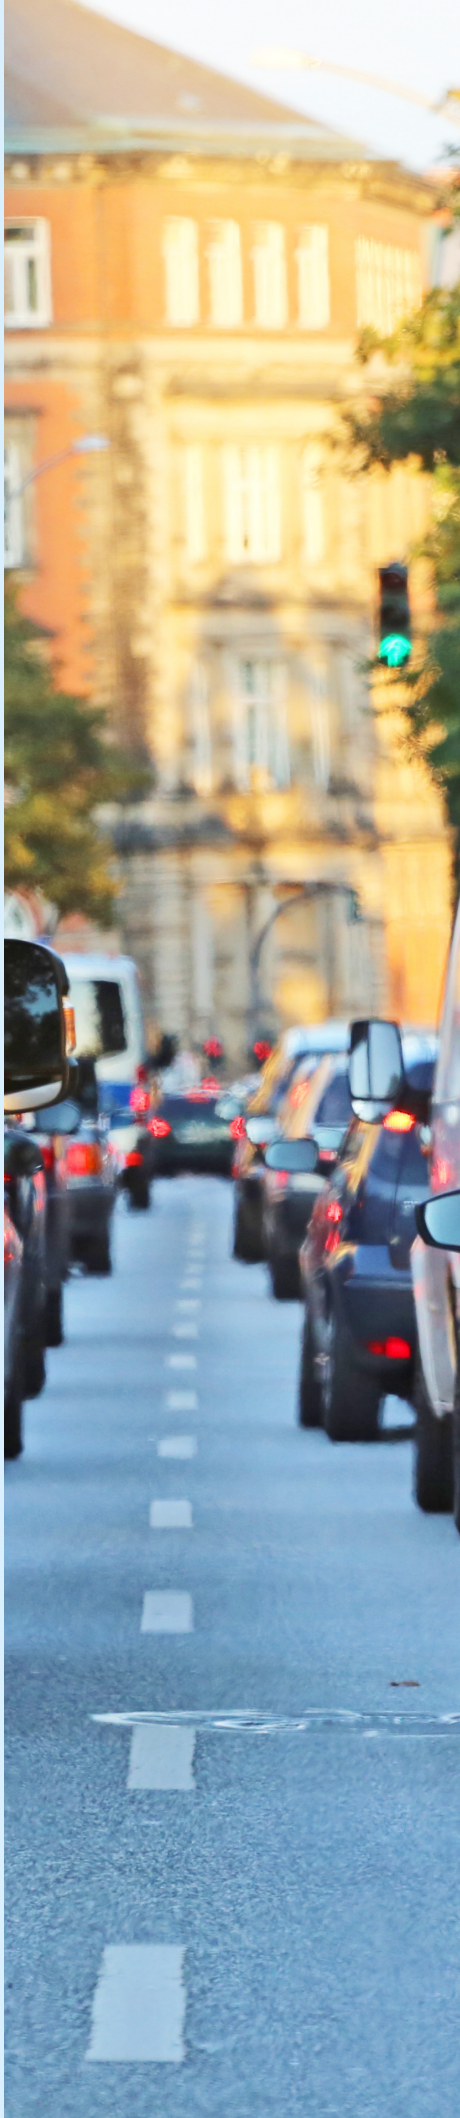

- We understand the unique needs of local councils and their ongoing infrastructure projects.
- Our services include collaborating with community groups to plan and implement effective traffic management strategies for events.

## CONSTRUCTION AND INFRASTRUCTURE PROJECTS

- CCTS has a strong presence in the construction and infrastructure sectors, serving Tier 1 and Tier 2 companies.
- We offer tailored traffic control solutions, working closely with project managers to meet specific requirements, deadlines, and safety standards.

# KEY CAPABILITIES & INDUSTRIES WE SERVICE (CONTINUED)

## SAFETY FOCUS

- Safety is paramount in all our operations. We adhere to the highest safety standards, ensuring maximum safety for all stakeholders including our staff, Council employees, traffic users, pedestrians and all other members of the public.
- Our team members are qualified and regularly trained in the latest traffic management techniques and safety protocols.

## HIGHLY SKILLED STAFF

- We take pride in our dedicated team of experienced professionals who are committed to delivering exceptional traffic control services.
- Our staff possess all certifications and qualifications as specified by SafeWork NSW and Transport for NSW Traffic Control at Worksites Technical Manual (TCAWS).
