

# M.E.T ENGINEERING COLLEGE

DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING

INDUSTRY INSTITUTE INTERFACE PROGRAM ON IT PARADIGM SHIFT

“Information Technology “is a pretty broad terms it covers a whole range of digital career paths that diverges into fascinating specializations. IT revolution is sweeping over the world. Although IT boom has revolutionized the western world beyond recognition it is still to make much headway in changing lives in India. The benefits of IT boom needs to penetrate down to the ordinary men and women in our country. To give a border insight into the field a one day seminar on “IT Paradigm Shift” was organized by the Department of Computer Science & Engineering, M.E.T Engineering College on 22/8/2019 at the Vasantham hall. The main objective of this program is to motivate and guide young Engineering graduates towards opportunities in the field of IT.

Mr.R.Jeyarama Balan, Tower Head, Tata Consultancy Services (TCS), Kochi was the resource person. Ms. Farzana, III CSE proposed the welcome address. Dr.P.Senthil Kumar, Principal, M.E.T Engineering College, presided over the function, he appreciated the selection of seminar topic and highlighted the importance and need of the day. Mr.Rahul, Placement & Training Officer in his felicitation stressed the importance of conducting technical seminars and events in the professional institutions. Mr.G.Jeyaram, HOD/CSE, introduced the resource person to the gathering and honored him with

Mr, Jeyarama Balan, Tower Head, TCS Addressing the Students

The seminar started with the need for Information Technology. The discussion included emerging trends in IT, innovations in IT industry, recent trends and employment opportunities in the various sectors of Information Technology. He detailed the opportunities in Information Technology sector including cloud computing engineers, computer network specialists, computer support specialist, Database administrator, IT analysts, IT Leadership Information Security specialist, Software/Application Developer, Web developer and testers. He taught the students the methodology of learning. He insisted the students to be open to learn, accept the ups and downs, implement and keep improving in order to achieve their goal. He guided the students regarding placements, the need for communication skills, importance of etiquette and internships. In order to make the session more interactive and interesting the session also included short games and knowledge sharing by the students. Awareness about how to attend an interview was demonstrated to the students through live examples.

Head of the department along with the CSE faculty members made the necessary arrangements for the successful conduct of the seminar. Ms.Silpi, II CSE proposed the vote of thanks.
