- Access the care calendar to see shifts and caregivers scheduled
- See clock-ins and clock-outs (which can only be done within the home to ensure accuracy)
- View caregiver notes and leave notes for the caregiver
- Add to-do items
- Give access to doctors, social workers, family members and anyone else on the care team
- Pay electronically and split care expenses with others
- See pictures and videos
- Monitor medication management

We give you peace of mind and the comfort both you and your family deserve and need. Be as active as you want using technology available to you 24 hours a day 7 days a week!

## Respite for Family Caregivers

Caring for an older adult, a person with disabilities, or someone recovering from an injury can be difficult physically, mentally, and emotionally. You are researching options because you love your family, and we are here to assist you, the carer, with peace of mind and confidence, just as much as the client that we are caring for.

With our respite care:

- You get to relax & reconnect with your other family members & friends
- You get social engagement
- You get to re-energize
- You get peace of mind
- You get to rediscover your sense of self
- You can take a worry free vacation

We give family members more time to do the things they love with their elderly and recovering family members.
