

NEW GROUP STARTING 30 NOVEMBER 2023

Chichester Boys' Club and Clarion Futures are pleased to announce that our warm space and community living room is commencing on 30 November 2023.

This is a free community venue where people over the age of 60 can come to stay from 12noon to 3pm on a Thursday to keep warm during the colder months. Our Warm space aims to tackle isolation and poverty by bringing local communities together, providing warmth, free food, a cup of tea and a sense of belonging. Our warm space also offers other services such as signposting to further help and support and activities.

Our staff and volunteers are passionate about providing a friendly and welcoming environment for those that want to drop in, chat and connect with others. We strive to make our community more social; person centred care and safety is at the forefront of all that we do. We look forward to collaborating with members of this group to ensure inclusivity for all.

A warm space, warm
warm welcome.

drink, warm food, and a
