Madison Township Fire Department

Fire Chief: Chadwick Coulter

Deputy Chief: Stephen Hartsock Jr.

Asset Ledger

Currently being worked on. Some more pressing issues were given priority such as stabilization of staffing and station 831 temporary housing.

Department News

A second Lucas device and 2 additional McGrath VL's were purchased and have arrived. This equipment was purchased with the anticipation of making Engine 831 an ALS non transport and to better serve the residents and visitors of Madison Township. This project is still in the planning phase and updates will be given when we have a more realistic date to begin this service.

The new Lucas device is in service and will be on the Engine assigned to Station 831.

The department does not qualify for the grant mentioned at the last meeting regarding funding for St 831 project.

New to us SCBA's were purchased to allow us to explore funding for the purchase of new SCBAS in the future.

Still awaiting status regarding the Assistance to Firefighters grant through FEMA applied for this year.

Our annual Freedom Festival will be held on 7/6/24 1pm -10pm.
