CANDLEBERRY®

Candleberry® has been making candles for over a quarter of a century.
No two candles are alike because each is hand-made.
Our craft is an art form!

Candleberry® Terms of Sale

By ordering Candleberry® products you confirm you are not doing business from a residence nor from a “booth” in a flea market or other communal sales site; that you are only selling the products from your approved, retail shipping address, properly zoned as business.

The Candleberry® brand name represents the very highest quality products. The brand provides strong profitability for retailers and high perceived value for the consumer. The Candleberry® brand image is essential to maintaining growth and consistent sales and must therefore be protected and cultivated by selling the products at full and fair market price. If the Candleberry® brand is not presented in the most positive way, it will significantly harm Candleberry® and the retailers of our products. Candleberry® retailers must further agree they will not advertise by any media means — typed, verbal, or otherwise — to sell Candleberry® products at a price lower than the suggested retail price on the Candleberry® order form.

To maintain a “protected territory” (as determined by Candleberry®), your monthly sales must achieve a certain average for the current three-month period. Please call 502.223.2799 for details.

If your account remains dormant for more than three months, a new application is required to be a Candleberry® retail distributor. If you open additional locations, each one requires an approved application. You may not sell Candleberry® products at unapproved locations. Prior to relocating your business, please call us to assure that you will be eligible to sell Candleberry® candles at your new location.

We reserve the right to change any of the above policies without advance notice.

3 Ways to Order

To us, the name "Nouveau" represents a product that is "fashionably novel." This collection features the powerful scents Candleberry® has always offered, with a design that is fresh and new, as the name suggests. - Group candles together by scent. The greater the quantity of each scent, the greater the impact.
- Place scents next to each other based on wax and label colors. Each candle should complement the one next to it.
- Stack candles on top of each other to make the most of your space. Diversify your large jar display with travel tins, wick trimmers, candy jars, etc.
- Create symmetry whenever possible in order to balance the display and draw the customer's eye.

CANDLEBERRY® Heritage & Vision

Candleberry's® vision is to craft the highest quality fragranced candles, first made in 1997 and sold in the family store. Few of those candle-making methods developed by the family have changed. They are still handmade, each different from the next.

Innovation is central to that vision. We develop product lines that fit together conceptually and artfully in scent and design. An example is Candleberry's® line of Reminiscent® fragrances of the home—decadent and foody—such as Hot Maple Toddy® and Pumpkin Praline Waffles™.

The new Gourmet Coffee Shoppe® candles have a variety of scents that engage your senses with unique and wonderful notes of select coffee blends. Nouveau® candles are an innovation that represents our efforts to align color, scent, and presentation for a candle that can be used in a variety of decors. It is pleasing visually and has wonderfully soft fragrances.

We invented the first Kentucky Bourbon® candle and created a full line of Bourbon spirits candles with delicate but lively and spirited notes of bourbon, fragrances loved even by those who are not bourbon aficionados. It is the perfect fit for our heritage, rooted in the Bluegrass State of Kentucky—home to the world's fastest horse and best bourbons since the 18th century.

COOKIE JAR

Do you have a favorite Candleberry® scent that you want to experience every day? This Cookie Jar is filled with a rich and inviting fragrance. Now available in exotic, homey, exciting, and relaxing fragrances! Poured to order.

Candleberry® Candle Care

BEFORE LIGHTING, place candle on a flat and stable surface that is not flammable. Avoid drafts. Never leave a burning candle unattended. Keep candle away from children, pets, water, or things that can catch fire.

ONCE LIT, melt the wax fully across, especially on the first burn. A full melt pool achieves maximum fragrance release. Avoid burning candle for more than four hours.

AVOID TUNNELING — a hole around the wick caused by burning the candle for short periods. Burn long enough each time so that the entire top surface of wax is melted. How long that takes depends on the size of the candle.

KEEP THE WICK TRIMMED to 1/4 inch. To trim, extinguish the flame and use a wick trimmer so the trimmings do not fall into the wax. (We supply free wick trimmers with some purchases.) Do not touch the hot wax or container.

DON'T BLOW OUT THE FLAME, snuff it out. A metal spoon works. Blowing the flame out spreads ashy debris into the candle's melted wax and may cause smoke. A buildup of wick trimmings or thick dust in the wick pool can catch fire. Cover the candle when not in use (to eliminate dust & debris) and let it cool before reusing.

DISCARD THE CANDLE when it is down to 1/2 inch of wax or if the container is damaged in any way. Do not reuse the container for refill and re-burning candles.

STAINLESS STEEL WICK TRIMMERS

Make your favorite Candleberry® candle last even longer by trimming the wick with this long-lasting stainless steel trimmer. Trimming the wick will help the wax burn more evenly for a better experience. Don't let your black wick trimmings trash up your wax pool.
