ADD-ON to any Pure Radiance Facial

Precautions to be aware of when requesting a Glycolic or Lactic Acid Peel:

Prior to requesting these treatments please inform your Esthetician of ALL vitamins, medication or products containing Retin-A and avoid consuming alcohol.

Right after the treatment you might feel some burning (tingling is normal) if burning occurs please inform your Esthetician. Cold compresses are recommended for this sensation if burning occurs at a later time. You might experience some redness, but again, this usually goes away within 24-48 hours. If you have sensitive or very fair skin you are more likely to encounter these discomforts. Please be sure to apply sunblock daily after this treatment, as your skin will be sensitive to sunlight.

Glycolic Acid Peel - \$25

Glycolic acid is currently a popular treatment for wrinkles and acne prone skin types as part of the alpha hydroxyl acid family of natural ingredients, it is derived from sugar cane and is a fruit acid. When applied to the skin, it helps to remove the “glue” that holds old, rough and dry skin on the surface as it removes the top layer of skin; a fresh, new layer is visible that radiates a clear, glowing complexion.

Lactic Acid Peel - \$25

One of the gentlest, unlike a glycolic acid peel or a salicylic acid peel, a lactic acid peel is extra gentle and good for those with even the most sensitive skin. Lactic acid is derived from sour milk. It's an alpha hydroxyl acid like glycolic acid. Lactic acid peels help to remove germs, dead cells and toxins from the skin. This peel will leave you with skin that feels smoother and appears more toned.

Décolleté Treatment - \$30

The Décolleté is one of the most neglected parts of the body when it comes to maintenance for prevention of aging. It is also more likely to show signs of aging sooner as the skin in this particular area is thinner. This Treatment includes cleansing along with a lactic acid peel and a restorative mask.

ADD-ON for any Facial or Massage

10 min Foot Scrub \$10 • 10 min Hand Scrub \$10

Combine both for \$18, which adds 20 minutes

Both Hand and Foot treatments include the use of our Chianti wine scrub, which will be removed with warm towels and a hydrating cream will be massaged into the area being treated.

Adds an additional 10 minutes for one, or 20 minutes for both.

SUNLESS TANNING

“Sun Laboratories” Sunless Tanning Lotion Application - \$75

Applied directly to the skin with the hands of your technician. Technology in the lotion matches the melanin in your skin while enhancing natural pigmentation. Color is instant and will intensify within 3 hours. To avoid discoloration it is best to exfoliate before this treatment and allow 24 hours before your next shower.
