

Welded Gabions

Welded Gabions are made from welded wire mesh panels assembled with spirals, locking pins and stiffeners. Over the years Gabions have evolved from simple functional applications such as retaining walls into today's architecturally interesting feature walls combining rocks or other elements, like landscaping.

Zhuoda Gabion specialize in welded gabion mesh with various sizes in the form of panels, rolls, and completed cages (boxed with all accessories including spirals and stiffeners).

Materials

- Galvanized
- Galfan (5% Al, 95% Zn)
- Galfan (10% Al, 90% Zn)
- PVC Coated (Galvanized or Galfan)
- Stainless steel

Mesh Opening

- 50 * 50 mm
- 75 * 75 mm
- 50 * 100 mm
- 100 * 100 mm

Diameter

3.0-5.0 mm are all available

Dimensions

- 0.5 * 0.5 * 0.5 m
- 1.0 * 0.5 * 0.5 m
- 1.0 * 1.0 * 1.0 m
- 2.0 * 1.0 * 1.0 m

Gabion Accessories

- Spirals
- Pins
- Stiffeners
