Five Objectives: To identify Profit Corporations operating globally to provide resources needed in all 193 nations, each Initial Governor nominates nine other leaders for the balance of 100 Governors at Kingdom Investor Group by December 31, 2024.

Objective 2: To invest the Global Economy with products and services that can be delivered to individuals anywhere on the planet by the end of 2024.

Objective 3: In Occupational Cultures from global (macro) to local (micro), all CEOs exercise freedom to learn what is accessible to *imago Dei* via Internet.

We are not there yet (only 65.7% of GenPop have Internet Access, as of 10/23)

By the finish line of the first quarter of the third millennium since Christmas started (Dec. 31, 2024), we will be closer to 100% access for anybody anywhere.

Objective 4: Public Education is the responsibility of each CEO to manage personally. Each must give account for oneself under present operational circumstances.

Objective 5: At the start of 2nd Quarter Century (Jan. 1, 2025), it is expected that all CEOs on the planet are engaged actively in Public Education and Occupational Cultures by their second decade (age 10-19). By their third decade, each CEO should be efficiently handling **7CAC**.

When you want more Public Education, study the concepts and practices in the book *CEO of Self: Leading Your Seven Cultures Amid Chaos (7CAC)*. Creator, give us wisdom to lead.
