

Athletic Facility - Southern Virginia University; Buena Vista, VA –Complete phased master plan for 50+ acre collegiate athletic facility, followed by complete civil engineering design of each phase. This project has been ongoing since 2008.

- Phase 1 included artificial turf football field, grass practice field, and pad for future softball field.
- Phase 2 included tennis facility with six full-size courts.
- Phase 3 is under construction and includes a 1250 seat stadium.
- Phase 4 will likely include an artificial turf baseball field and parking.
- Phase 5 will likely include another artificial turf football field near the tennis courts surrounded by a track to accommodate collegiate Track & Field events.

Master Plan showing existing construction progress and future facilities

Artificial Turf Field (2008) and Stadium with Locker Rooms and Concessions (2017)

Tennis Courts under construction in 2013
