

You are 72% water.

HAVE YOU EVER
WONDERED IF YOU
ARE DRINKING THE
BEST WATER FOR
HEALTH & ENERGY!

What is the BEST WATER?

Are there dangers?

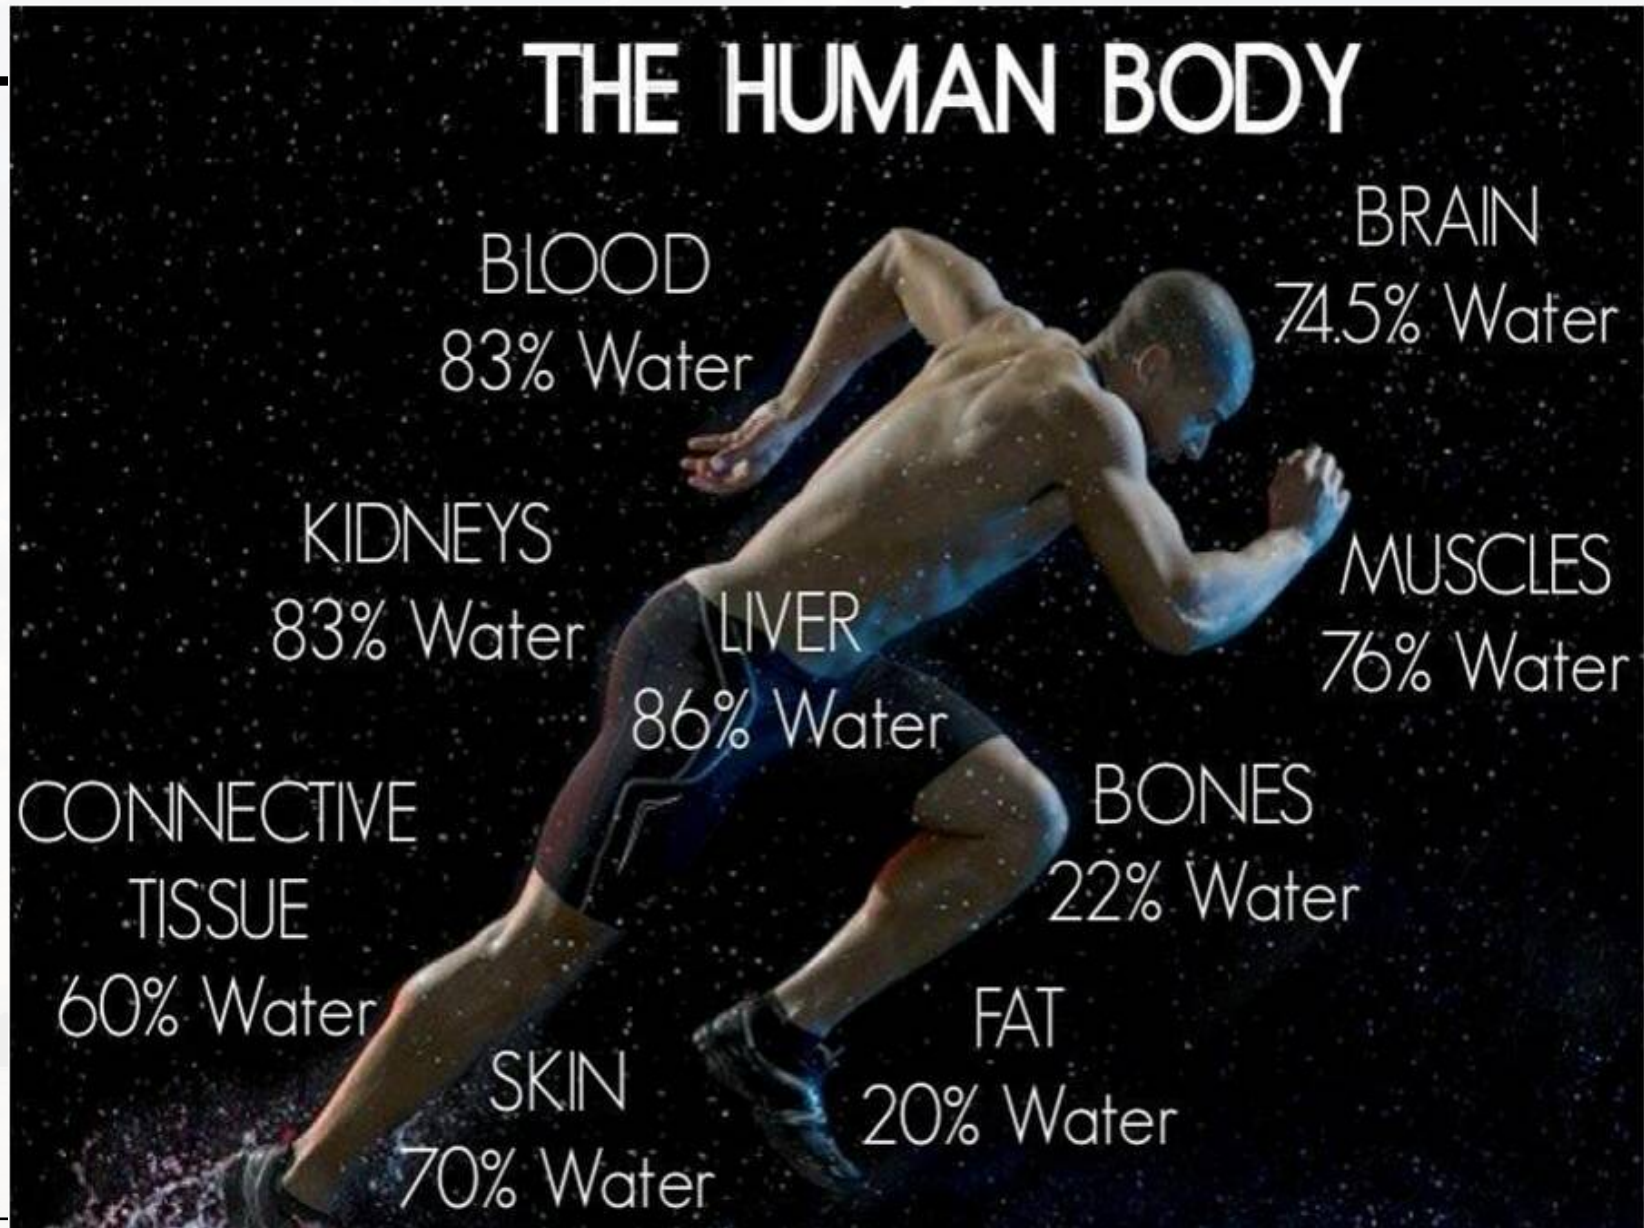

Health and Healing

Should I be cooking with?

Household Cleaning

Sterilization

THE HUMAN BODY IS 72% WATER

WHAT IS INSIDE MATTERS

THE HUMAN BODY IS LIKE A SALT
WATER AQUARIUM

IF WE PUT WHAT WE DRINK INTO OUR
AQUARIUM THIS IS WHAT IT'D LOOK
LIKE... NOW IMAGINE WHAT YOUR
INSIDES LOOK LIKE

**WHEN YOUR CHILD'S LIFE
LITERALLY DEPENDS ON
WATER, ONLY THE BEST
WILL DO.**

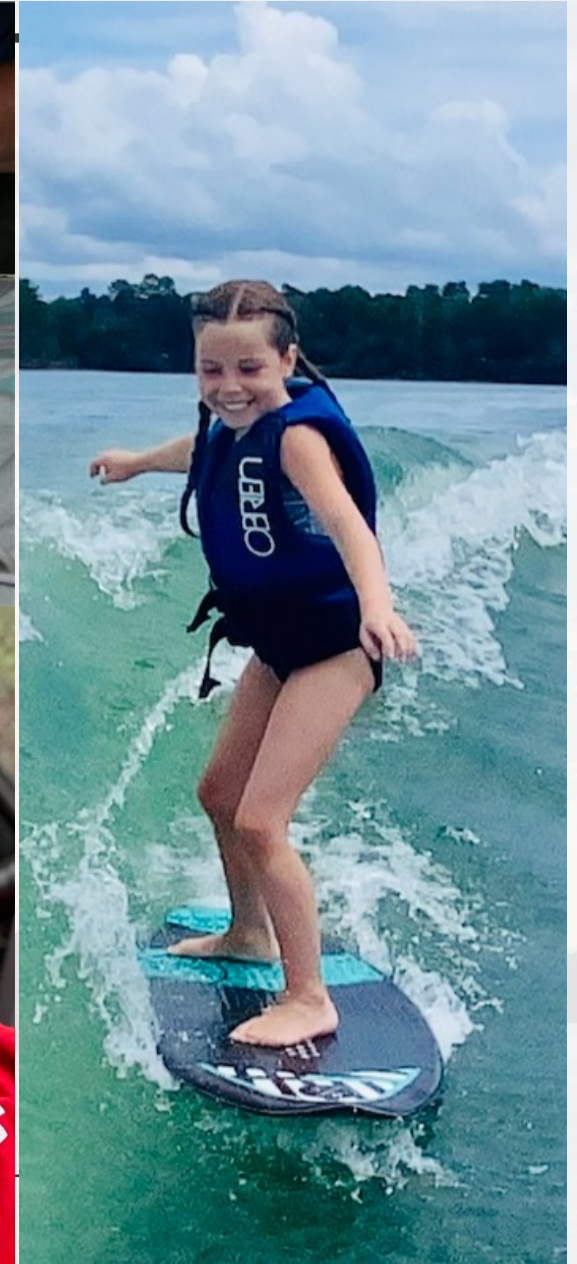

Skylar was born in 2009 with severe gastroschisis, literally inside-out.

Acute dehydration syndrome nearly killed her several times.

It nearly destroyed me, our family, our other children's future, and our businesses.

Thankfully, we discovered ERW!

Dr. Michael Donaldson

**BIOHAZARD
WARNING**

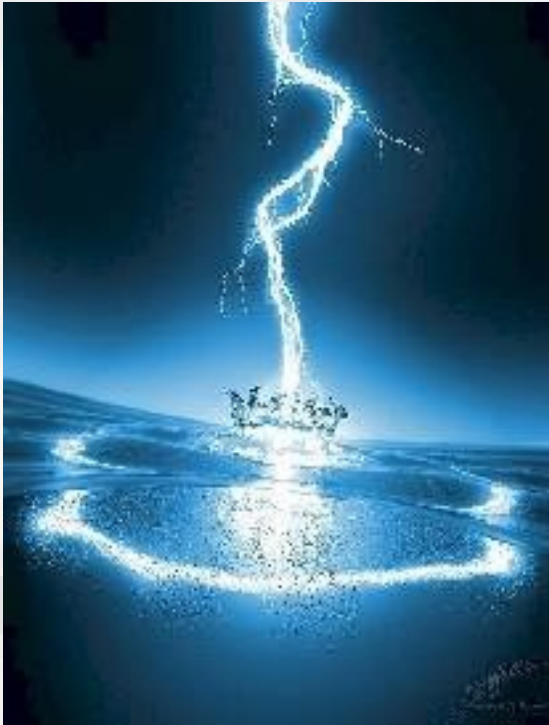

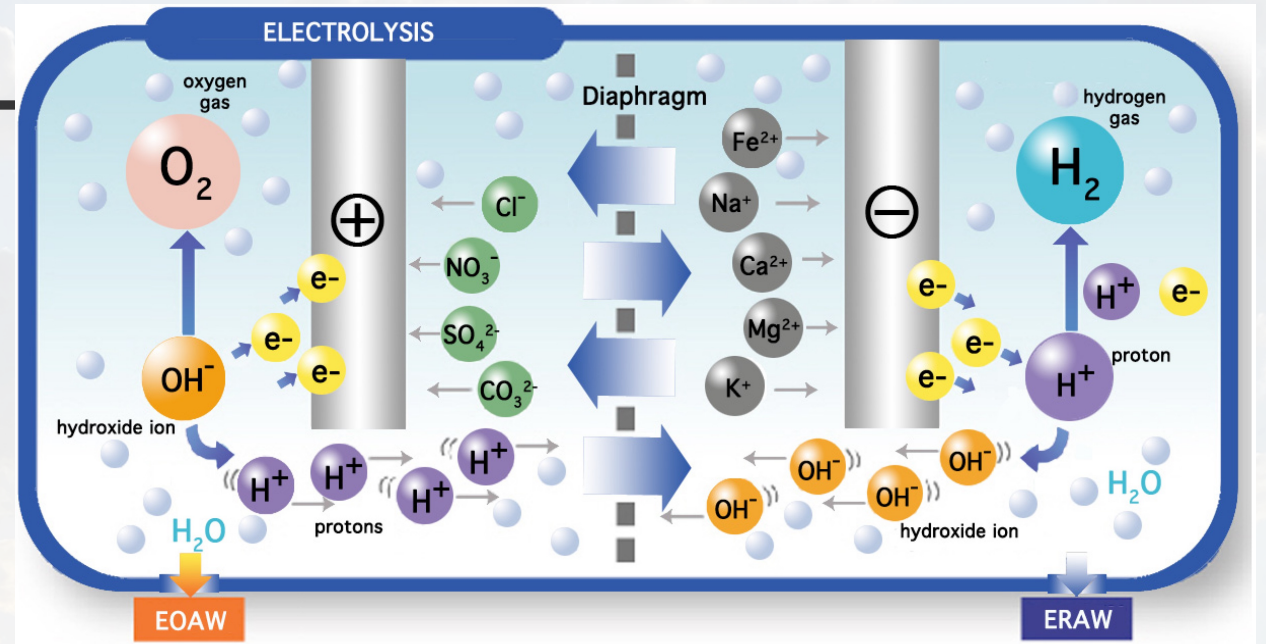

CAUTION

SOME WATER DANGERS

- **Tap water** - contaminated water that has been 'Cleaned Up" and chemically treated.
- Chlorine, bromine, fluoride, toluene, lye, etc are all added for "water quality and taste'
- **Filtered Water** –polluted or contaminated water that has been partially cleaned up.
- **Distilled and RO water** - super clean but rapidly depletes the body of essential vitamins, minerals, salts, and electrolytes.
- **Bottled water** –RO that has been re-mineralized and stored in plastics containers that leech into the water.
- **Typical alkaline ionizers** add indigestible minerals to buffer the water and then ionize them creating health issues within the body.

SCIENCE OF WATER

THERE REALLY IS ONE BEST TYPE OF WATER, AT LEAST ACCORDING TO THE RESEARCH.

Electrolyzed Reduced Water (ERW) - has been struck by LIGHTNING has been reduced and restructured with electricity.

Activating hydrogen, oxygen, hydroxide, combined with a high electric potential that will ...

ENERGIZE, RECHARGE, AND DETOXYFY YOUR CELLS.

Everything else is simply **SECOND BEST... or worse!**

SUPERIOR HYDRATION

Not all water hydrates equally. Electrolyzed Reduced Water is designed to hydrate and detoxify cells quickly and efficiently. This is critical in addressing everything from diseases, anti-aging, and fertility, to athletic performance and general health & wellness.

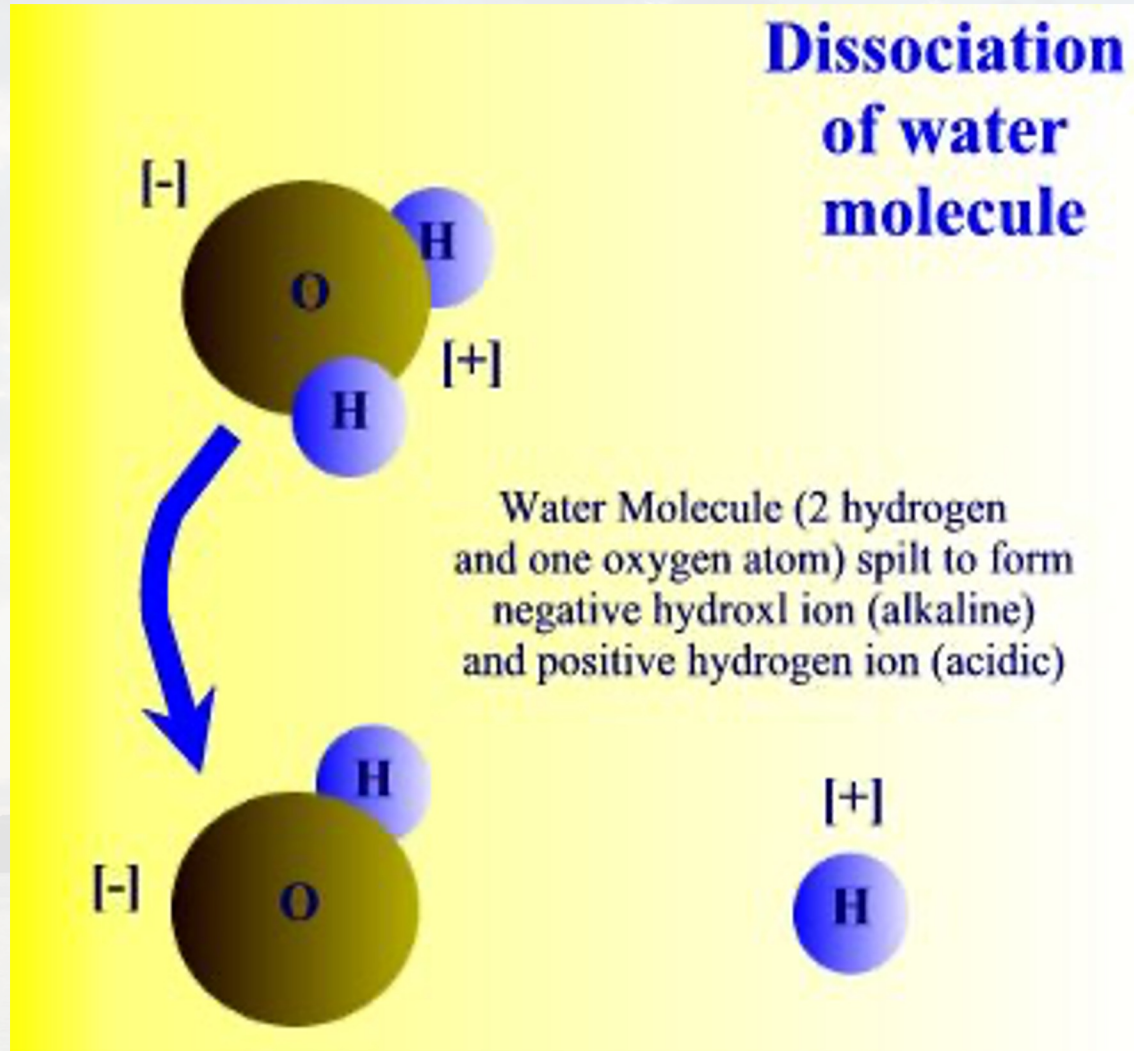

DRINK SOME OF THE BEST WATER IN THE WORLD

'A LIGHTNING STRIKE IN A BOX'

ERW is a natural process, much like when a lightning bolt strikes water

DISSOCIATION OF WATER MOLECULES

- Molecular Hydrogen
- Active oxygen
- Hydroxyl anions are free radical scavengers
- Restructured for rapid absorption, maximizing nutrition & detoxification

Electrolyzed Reduced Water:

Is Electrical not chemical

Is NOT affected by the stomach

Is self limiting within 3-4 days

Does not build up in your system

ERW /
ALKALYZED
VS
ALKALINE PH
WATER

DO YOU OR A FAMILY MEMBER
SUFFER FROM DIGESTIVE ISSUES LIKE
PAIN, GAS, BLOATING?

SKYLAR DID.

- What kind of water do you **COOK** with?
- Tap water, filtered water, OR the best water possible.
- How are you removing the **PESTICIDES** on your fruits and veggies?
 - What is left on your foods?
 - What chemicals are being **COOKED** into your foods?

REMOVING PESTICIDES

Pesticides are toxins, and they are chemically designed to withstand rain water, meaning that they are not removed in normal tap water either. Electrolyzed Reduced Water can remove these toxins and make your fruits and veggies taste even better!

****Clinical research - EFFICACY OF ELECTROLYZED WATER IN DEGRADING AND REMOVING PESTICIDE RESIDUES ON FRESH PRODUCE By HANG QI**

**FOODS READILY
ABSORB CHLORINE**

BEAUTY WATER ... ON DEMAND!

Your skin constantly interacts with your environment – it has a very sensitive pH range and toners are designed to match this. ERW assists with acne, psoriasis, eczema, rashes, etc.

Hair Care – all the minerals and chemicals added to water can wreak havoc on your hair. ERW helps restore dry & damaged hair.

CLEANING, SANITIZING, DISINFECTING: WHAT'S THE DIFFERENCE?

CLEANING & STERILIZATION

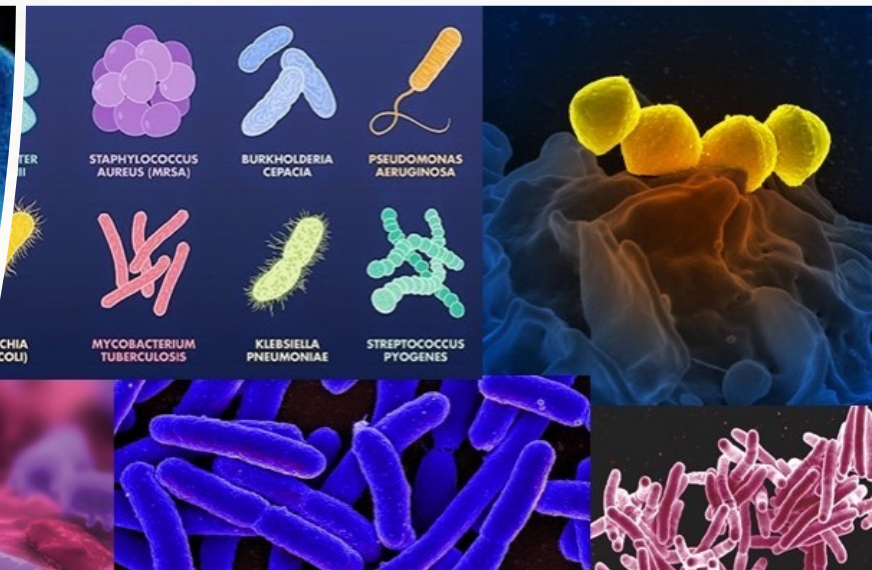

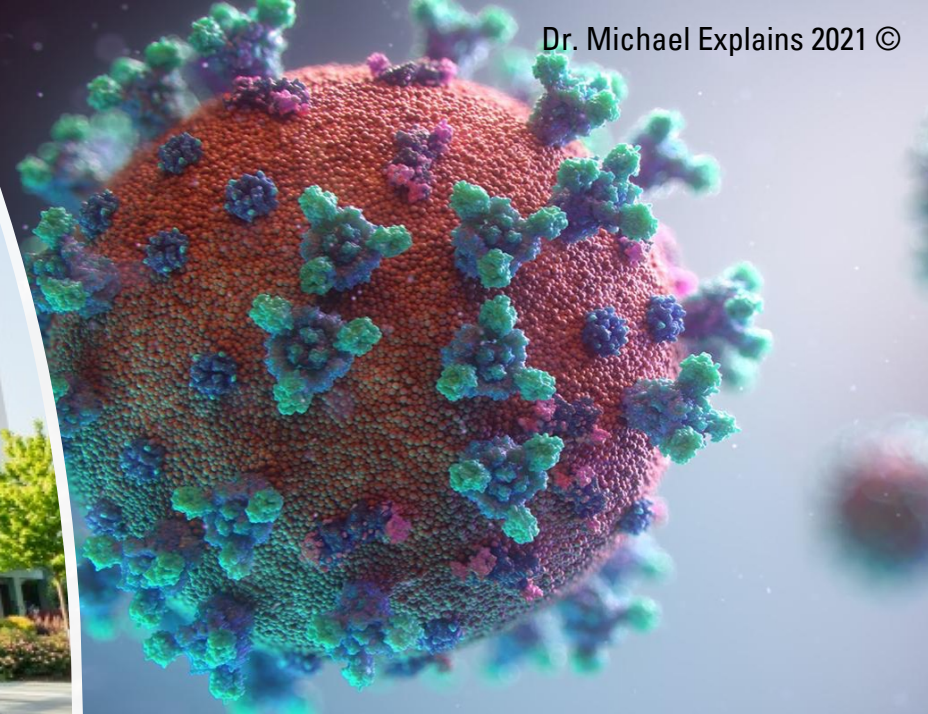

- If you have children, you understand the dangers around cleaning and sterilizing agents
- What if there was an affordable Eco-friendly way to clean and sterilize your office or home, or even your children's toys?

That is 100% safe, non-toxic, and bio-degradable?

ELECTROLYZED 2.5 PH HYPOCHLOROUS ACID POWERFUL ENOUGH FOR HOSPITAL USE*

Clinically researched for
sterilization, wound care, and
the treatment of staph, strep,
MRSA, CRKP, and corona!

- Clinically proven
- Does NO harm
- Bio-degradable
- Research Pub-Med

*Hospitals using 2.5 ERW Hypochlorous Acid.
The Kitari Institute, Tokyo Women's College of Medicine, Kyowa, Iida, Hanabatake, and many other hospitals

Super-oxidized water kills bacteria; demonstrates potential for healing

BY REBECCA BRYANT
STAFF CORRESPONDENT

Dr. Gutiérrez

International report

— Mix salt and water and you get saltwater, which has long been thought to have healing properties. Put the ingredients through an electrolysis process to kick a single oxygen electron out of its orbit,

and the result is a super-oxidized water (SOW) that kills bacteria, viruses, fungi and spores.

Although SOWs have been around for at least 20 years, their use has been hampered by two problems. First, scientists and engineers could not deliver a stable product. Indeed, SOWs had a shelf life so short — a few hours — they had to be manufactured on site, using equipment that could cost more than \$100,000. Second, SOWs were either acidic or alkaline, leading to tissue damage and corrosion of equipment.

pH neutral SOW

Photos: Andrés A. Gutiérrez, M.D., Ph.D.

"So far it will kill any kind of bacteria, mycobacteria, spores, fungi and viruses."

— Andrés A. Gutiérrez, M.D., Ph.D., Mexico City

Strong acidic water has been shown to have significant impact when added to the standard protocols in addressing sterilization and wound care. It is now being used in conjunction with all forms of traditional medical treatments.

Diabetes

Anti-diabetic effects of electrolyzed reduced water in streptozotocin-induced and genetic diabetic mice.

Kim MJ¹, Kim HK

Abstract
Oxidative stress is produced under diabetic conditions and is likely involved in progression of pancreatic beta-cell dysfunction found in diabetes. Both an increase in reactive oxygen free radical species (ROS) and a decrease in the antioxidant defense mechanism lead to the increase in oxidative stress in diabetes. Electrolyzed reduced water (ERW) with ROS scavenging ability may have a potential effect on diabetic animals, a model for high oxidative stress. Therefore, the present study examined the possible anti-diabetic effect of ERW in two genetic animal models. The gene...

- Active surgical practice for over 35 years.
- Serves on the Enagic® Medical Advisory Board.

DID YOU KNOW?

Taking a shower, soaking in a bath, hot tub, or swimming pool for 15 minutes absorbs as much chlorine as drinking 1 quart of the same water

AND IT IS EVERYWHERE

Tap water

Bath

Shower

Pools

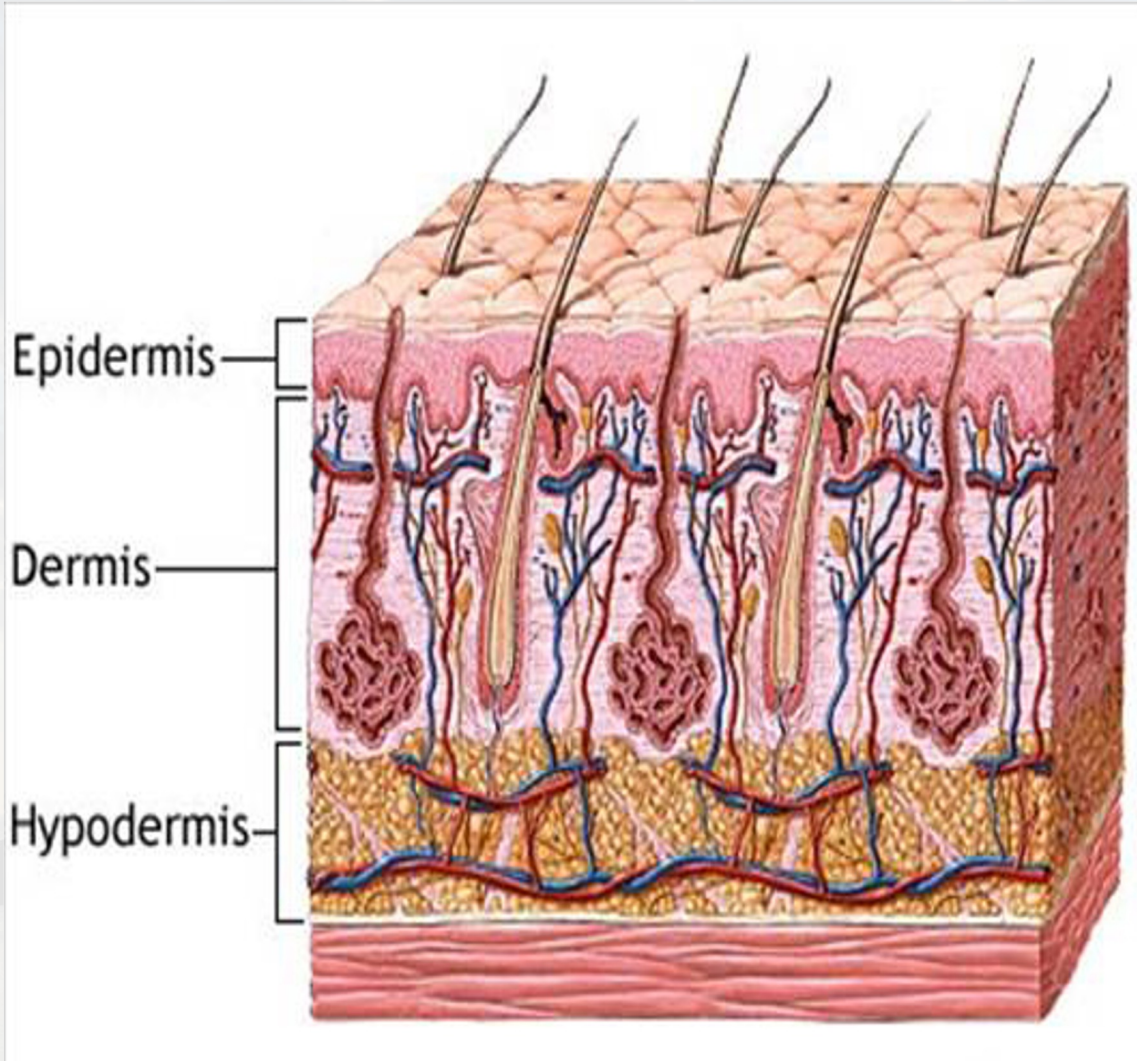

Exercise facilities

Hot tubs

Food

WHAT ABOUT TAKING A SHOWER OR PLAYING IN THE POOL?

- **Skin is the largest organ in the body, and is your primary connection to your environment**
- **Filters toxins, and has a high absorption rate**
- **Extremely sensitive**
- **Hair follicles can wick toxins deep into your system, blood vessels, lymph, etc.**
- **Sebaceous glands are very susceptible to toxins**
- **Soaking in a hot bath for 15 minutes absorbs as much chlorine as drinking 1 quart of the same water!**

A MESSAGE FROM DR. MICHAEL

Dr. Michael with Skylar today!

There is a health crisis sweeping our county in regards to cancer, diabetes, and neurological disorders. If we can find any thread to significantly improving the odds with these horrible conditions, it will be a great step forward.

In all of these cases, and many other health issues, Electrolyzed Reduced Water (ERW) has shown significant impact on addressing these issues.

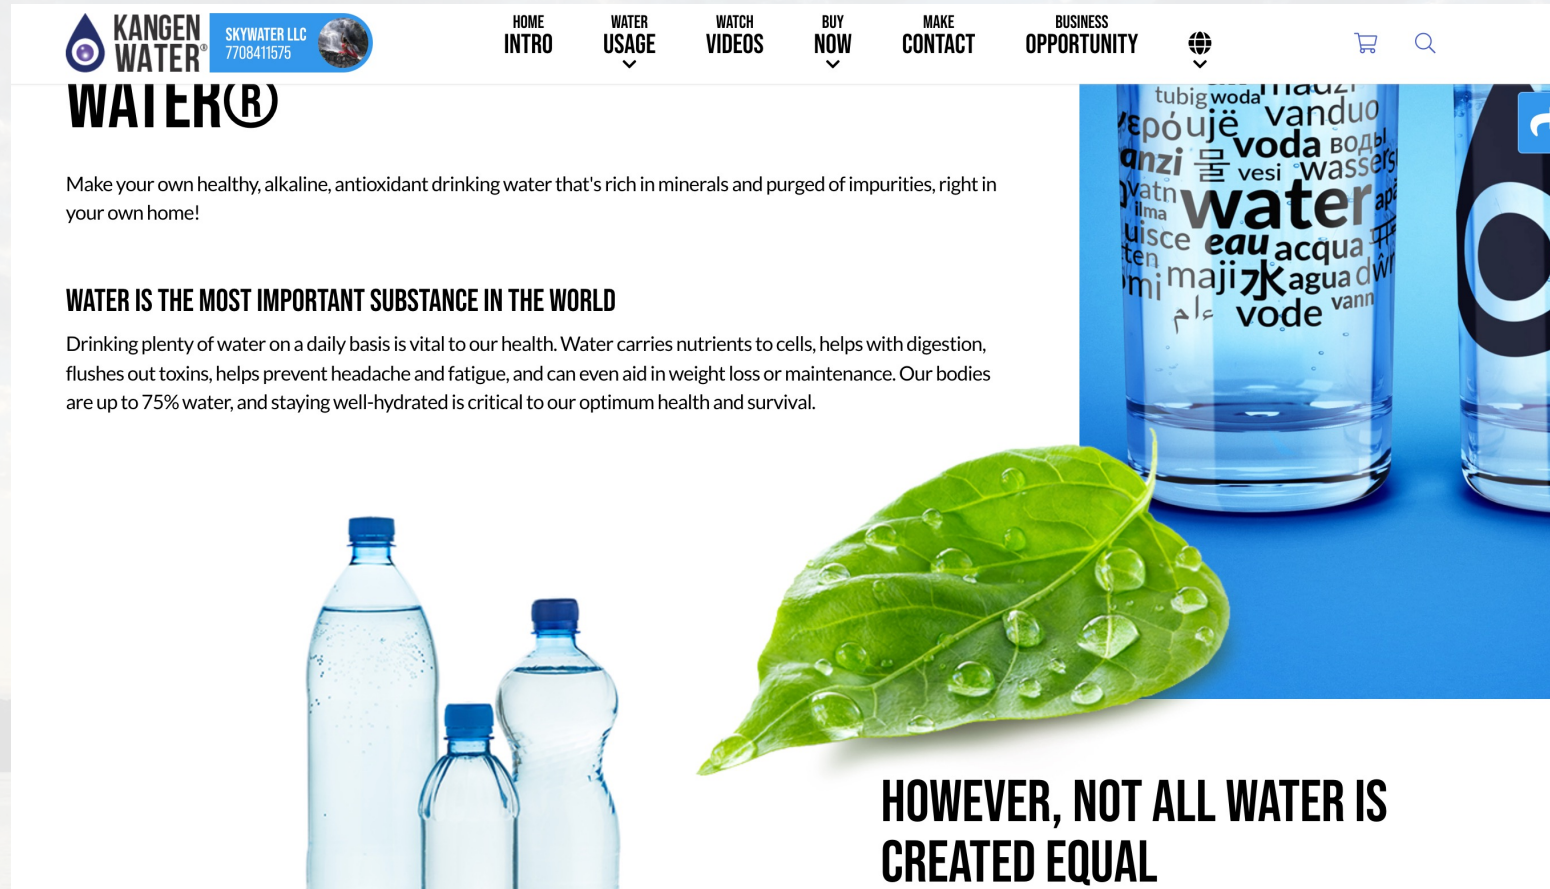

I didn't find ERW because of some professional or noble cause. Unfortunately, I discovered ERW and started using it because of my daughter Skylar's gastroschisis diagnosis. She literally suffered for years because of something as simple as her source of water. ERW changed everything for her.

We are all 72% water. As a father and physician, when I came to the realization that all of our effort, time, energy, and money was only addressing the 28% of her that was not water -- it was overwhelming. After that, I set out to help educate others in order to help them and help their loved ones. I have made it my life's mission to help you change your water, and your life.

- Dr. Michael Donaldson

WATER®

Make your own healthy, alkaline, antioxidant drinking water that's rich in minerals and purged of impurities, right in your own home!

WATER IS THE MOST IMPORTANT SUBSTANCE IN THE WORLD

Drinking plenty of water on a daily basis is vital to our health. Water carries nutrients to cells, helps with digestion, flushes out toxins, helps prevent headache and fatigue, and can even aid in weight loss or maintenance. Our bodies are up to 75% water, and staying well-hydrated is critical to our optimum health and survival.

HOWEVER, NOT ALL WATER IS CREATED EQUAL
