Canada™**

FALL/WINTER 2021

CONQUER THE COLD WITH
ABSOLUTE CONFIDENCE
ABSOLUTE COMFORT
ABSOLUTE WARMTH

2021

Designed right here in the Great White North, the Absolute Canada lineup includes a wide selection of winter and outdoor footwear. As a family-owned and operated business with more than 30 years of footwear experience, we know how important it is to keep every member of the family dry, warm and comfortable.

We recognize the importance of comfort and safety when trekking through tough winters. After experiencing first-hand getting stranded in a forest on a cold winter's night, pushing through deep snow, we realized how crucial it is to be equipped with footwear that you can trust.

We're committed to providing you with boots built for battling the elements - anywhere and anytime, day or night - to conquer winter with absolute confidence.

ULTRALIGHT TECHNOLOGY

PROPULSION RUBBER™

With our ultralight Propulsion Rubber™, we've raised the bar by providing a superior combination of warmth and comfort as well as proving that boots don't need to be heavy in order to keep your feet warm. Our collection of Propulsion Rubber™ boots allow you to stay active without tiring out your feet!

KIDS

LIGHT UP YOUR WINTER

Have fun while staying dry and comfortable all winter long with boots built for cold weather. Our kids collection provides full waterproof coverage in snow and on any wet, icy surface so kids can enjoy their time outside.

Our Northern Lights™ collection adds a whole new experience to winter fun with LED lights that glow wherever they go. These boots can brighten any gloomy winter day and ensure kids stay warm and safe at night.

NOTES

WATERPROOF TECHNOLOGIES

Rain, mud, creeks, rivers, snow - all these obstacles are out to stop you from staying dry. Here at Absolute Canada, we use a range of waterproof systems to keep your feet water-free as you tackle Mother Nature.

Waterproof Membrane

A 100% waterproof bootie laminated to the inside of your boot. The protective membrane has a high abrasion-resistant lining for maximum wear and comfort.

Seam Sealed

Waterproof material is heat sealed at the stitch line creating a waterproof barrier against outside moisture.

Waterproof Shell

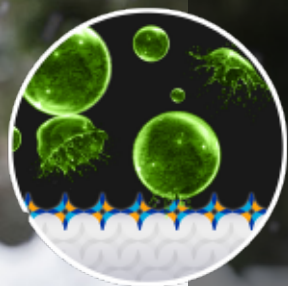

Boots equipped with shells provide full waterproof coverage in snow and on any wet, icy surface.

aegis®

AEGIS® ODOR CONTROL TECHNOLOGY

Keep your boots smelling fresh and clean this winter. When AEGIS® technology comes into contact with microorganisms, their cell membranes are punctured and they can no longer grow or reproduce. You can find AEGIS® anti-microbial spray throughout our Absolute Canada collection.

Long-Lasting

Environmentally Friendly

Breaks the Mold

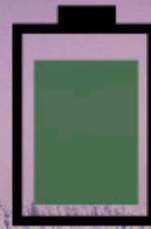

Less Stink & Staining

HEATED INSOLE TECHNOLOGY

These cold-weather boots feature heated insole technology that keeps your feet warm in the snow, rain, and coldest of temperatures.

Multi-purpose rechargeable, portable lithium power banks (5,000-10,000 mAh) can be used to recharge a cellphone multiple times as well as for many other devices.

Heating lasts 6-8 hours per charge. Easy to replace with supplied regular insole and re-installed when needed.

WOMEN

FASHIONABLY WARM

There's no need to trade style for warmth this season. We've carefully designed our women's collection to utilize on-trend materials while using next generation waterproofing technology to ensure your toes stay toasty and dry. Our high quality materials keep moisture out while letting your feet breathe.

**HYDRO
STOPPER®**

ANTI-SLIP TECHNOLOGY

Anti-slip pods
for ultimate
wet-ice grip

Specifically designed for snow, rain, ice and frozen surfaces, Hydrostopper® is an anti-slip technology engineered in Japan to help you stay on your feet. Proven to work across a variety of landscapes ranging from the Rockies to your everyday snowy commute to work, Hydrostopper® pods incorporate glass fiber technology to provide you with a strong grip on wet, icy surfaces so that you can walk all over winter.

RO

REALTREE EDGE™

The first camo pattern that allows you to blend into your hunting environment at close range, with natural elements arranged in a way to disrupt the human form at a distance.

T REALTREE TIMBER™

Combines abstract design with realistic natural elements for remarkable camouflage effectiveness. It adapts seamlessly to waterfowling scenarios, yet is universal enough to work in a variety of hunting situations.

MEN

FULLY EQUIPPED

This year we have enhanced our men's collection by adding heated insoles. Our 10,000 mAh batteries have enough power to keep your feet warm for several hours.

We continue to add value to our line through our partnerships with Hydrostopper® and Vibram®, including compounds like Arctic Grip™. With our breathable genuine leathers, waterproofing technology, and Heat-Mx™ advanced thermal insulation, you'll be ready for anything Mother Nature can throw at you.
