year-round ASAP**

Scotland and Canada...
Four centuries of history

There's a natural connection between Scotland and Canada.

Trespass was born in Scotland over 75 years ago. It began as a maker of rugged work wear for Glasgow's industrial sector. Over the years, high quality overalls, gloves, and protective clothing began to give way to outdoor performance apparel.

The name **Trespass** is connected to Scotland's "right to roam." Public access rights were created by the 2003 Land Reform (Scotland)

land] Act. This Act provides the public with the right to be on and cross most land and inland water in Scotland. To **Go Further**, and to enjoy the beauty of the land is in the DNA of every Scot and every **Trespass** garment.

Both Canadians and Scots share a passion for the great outdoors and the challenges of being outside, for as long as we need or want to... no matter what. Because we know that by choosing the right apparel, anything and everything is possible!

SAG COMMITMENT NOT TO COMPETE WITH OUR RETAILERS

The Software Apparel Group (Canadian distributor of Trespass performance apparel) does not compete with its retailer customers. We do not have a web store. Our website drives customers to your store; the more Trespass products you sell, the happier we are and the stronger our relationship. We grow through your growth.

We grow through your growth.

100% ACCURACY OF FULFILLMENT/INVOICING

We hate errors. We believe that you should get exactly what you ordered and our invoices and packing slips should reflect that. Every day, we strive for speed and perfection in our logistics. Things do happen, so when they do, you can expect same day, fast, courteous and empathetic service. We try to think like you and put ourselves in your shoes. Your success is our success, not the other way around.

CUSTOMER RETURNS POLICY (AN INDUSTRY FIRST)

If a customer returns a product with a manufacturer's defect, our policy is to credit you with twice the amount you initially paid. Why should you lose your profit because of our mistake? You did the hard work of stocking the product, closing the sale and servicing the customer. We have 100% confidence in our products (over 60,000 **QikPac** products sold over 5 years, with less than 35 returns) and 100% confidence in you! There's no need to return **Trespass** products to us - we trust you!

Book & Try Program

- Book an order by Feb 17, 2023
- Select any one product from our **ASAP** inventory
- We send it to you immediately (n/c for the product or delivery)
- Experience your selected item while you await delivery of your seasonal order

Training Credit Program

- Book an order by Feb 17, 2023
- Upon receipt of your booking order, book a PK session with your rep
- After receiving PK training, tell your rep which item from your stock will be credited
- Receive a credit for the selected piece, to be used against your next invoice

OUR JOURNEY

Trespass® is a prize winning privately owned company with its headquarters in Glasgow, Scotland, UK. Jacobs & Turner Ltd, was established in 1938 as a manufacturer of workwear and outerwear. The Trespass® brand was created in 1984 and is focused on performance outdoor sports and leisurewear.

The Trespass® mission is to become the **FIRST CHOICE GLOBALLY** when purchasing **PERFORMANCE CLOTHING** and **ACCESSORIES**.

Trespass® is already established as a renowned clothing and equipment supplier for outdoor enthusiasts. More people around the world need to **discover the benefits of Trespass®** apparel & accessories.

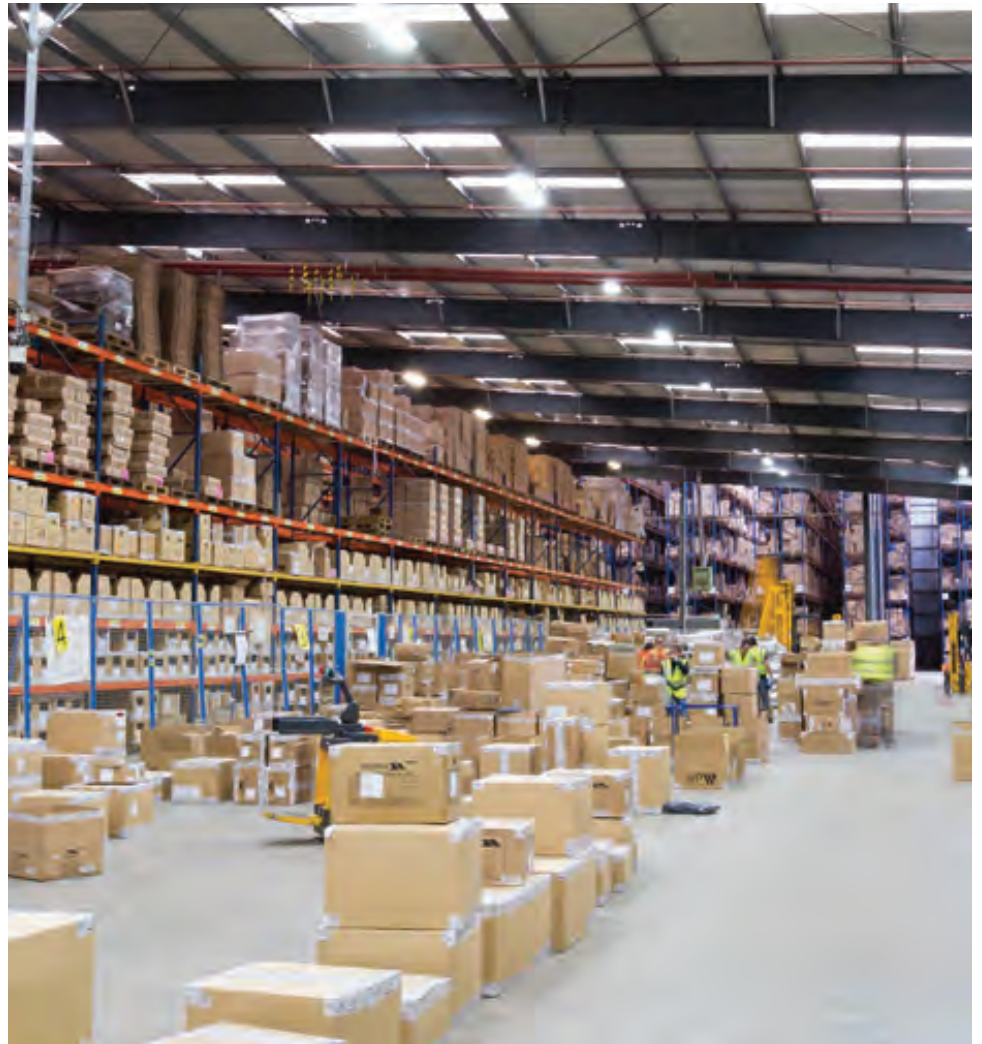

LOCATION & FACILITIES

Trespass® is one of the UK's most successful outdoor clothing retailers.

Glasgow, West of Scotland, is an excellent hub, close to the airport, motorway network and shipping routes.

Our purpose built office houses sales, design and distribution staff as well as a state of the art pick & pack warehousing and distribution.

Over 400,000 m³ state of the art computerised storage & distribution.

OUR RATINGS EXPLAINED

TRESPASS TP RATINGS

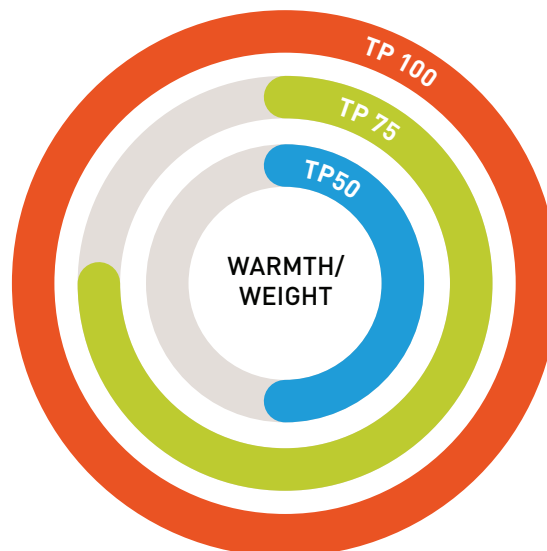

Finding the right combination of waterproofing and breathability to meet your exact needs is crucial if you want to stay warm, dry and comfortable in any condition. We make finding the fabric that's right for you easy, with our tiered rating system.

TP100 10000mm Waterproof
5000mvp Breathable and upwards
Duoskin+
Moskitophobia

TP75 2000 - 5000mm Waterproof
3000 - 5000mvp Breathable
Duoskin
Coolmax
Supplex
UV Protection

TP50 Water Resistant - 5000mm
Waterproof

The quick reference guide lets you zone in, indicating where this particular item sits in the Technical Performance range. Choose the 'TP rating' to satisfy your needs or activity. The higher rating means increased features/performance.

TRESPASS AIRTRAP RATINGS

Finding the right level of warmth to meet your needs is crucial if you want to stay warm, dry and comfortable. We make finding the fleece that's right for you easy, with our new AT rating system. The higher the rating the heavier weight of fleece.

AT500 500 - 599gsm Airtrap Fleece

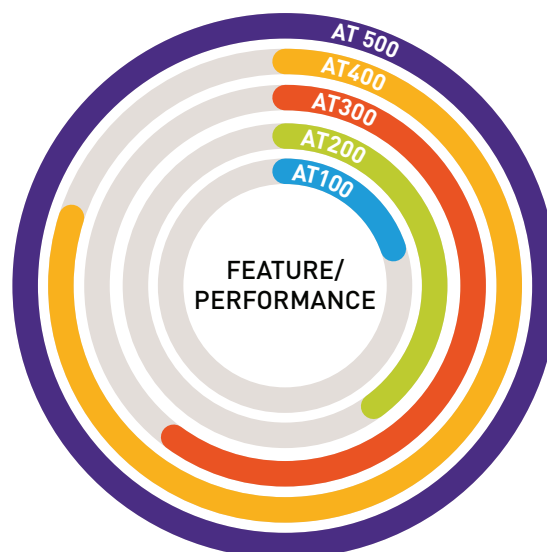

AT400 400 - 499gsm Airtrap Fleece

AT300 300 - 399gsm Airtrap Fleece

AT200 200 - 299gsm Airtrap Fleece

AT100 100 - 199gsm Airtrap Fleece

We offer a comprehensive range including Micro, Polar, Bonded, Water Resistant and printed garments with optimum comfort and protection in mind. Our Fleece range delivers durability whether it be for today's customer requiring high-output outdoor performance or those enjoying every day activities.

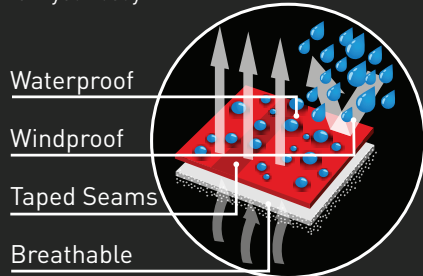

TECHNOLOGY GUIDE

tres-tex®

WATERPROOF & BREATHABLE FABRIC

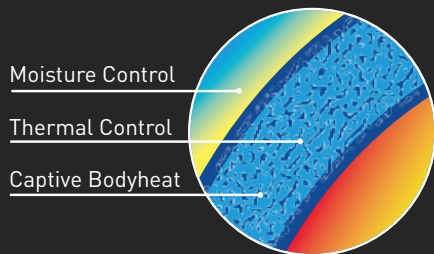

Waterproof, Windproof and Breathable Fabric - This performance fabric is used in many of our ranges. Ideal for active, highly mobile pursuits. Supple, durable and functional coatings and surface treatments help repel water and work with your layering system to draw moisture away from your body.

AIRTRAP®

PERFORMANCE FLEECE

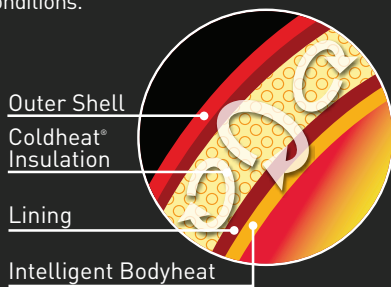

Designed for comfort and warmth - Soft, light, breathable, anti-pil fleece, these garments are a versatile mid-layer. The special structure of Airtrap® not only stretches to give you freedom of movement but creates airspaces that trap and hold your body heat.

COLDHEAT®

COLDHEAT INSULATION • THERMOISOLIERUNG • ISOLATION THERMIQUE

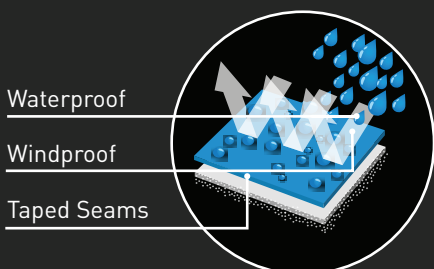

Coldheat Insulation. Lightweight, durable and soft lofted fibres trap and hold the heat generated by your body, giving you maximum freedom of movement allowing you to stay comfortable in the most arctic of conditions.

TRES-SHIELD®

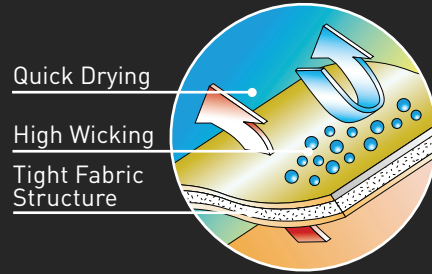

WATERPROOF & WINDPROOF FABRIC

Waterproof and Windproof Fabric - This performance fabric is used to produce a range of great value outerwear. Ideal for bad weather situations. Supple and durable, functional coatings and surface treatments help repel water and wind keeping you comfortable.

DUOSKIN

Duoskin® Intelligent Fabric from Trespass® - Effectively draws moisture away from the skin. This moisture quickly evaporates when brought to the surface of the fabric, leaving you dry and comfortable. Tightly woven fibres, high wicking and quick drying.

COOLMAX

Coolmax® fabric offers soft, lightweight and breathable comfort. It wicks moisture away from your body keeping you cool, dry and comfortable.

PACKAWAY

Be prepared without sacrificing weight and space in your pack. Packaway garments are lightweight, adjustable and less bulky yet retain their performance.

U.V.

Specially woven fibres shield the skin underneath from the sun's ultraviolet rays, providing an added layer of protection from the elements.

DWR

DWR is a durable water repellent finish which provides a protective wall from water droplets on the outer layer of the garment. DWR is not waterproof, but does reduce condensation forming, aiding breathability so less moisture reaches your skin.

MOSKITOPHOBIA

Provides a major line in defence against irritating, biting insects. Moskitophobia® contains Lycra®, giving comfortable stretch properties. Moskitophobia® is also fast drying and high wicking, maintaining unparalleled personal luxury. Easy-wear, easy-care.

INTELLIGENT®

An inspired solution to the cold weather problem. Reflective surfaces send back valuable warmth that would otherwise escape. By reflecting the body's heat, intelligent use of materials can reduce bulk and padding with insulated outerwear.

TAPED SEAMS

Every seam produced creates hundreds of needle holes that water can get through. Applying a thermoplastic tape under heat and pressure will seal the seams to keep moisture from passing through. Taped seams keep you drier and warmer.
