

GEOX RESPIRA

SIZE CHART

EU SIZE	US SIZE	UK SIZE	FOOT LENGTH (cm)
39	6	6	25.10
40	7	6.5	25.70
41	8	7	26.30
41 ½	8.5	7.5	26.60
42	9	8	27.00
42 ½	9.5	8.5	27.30
43	10	9	27.70
43 ½	10.5	9.5	28.00
44	11	10	28.40
45	12	10.5	29.10
46	12.5	11	29.80
47	13	12	30.40

Note - If you are purchasing Geox shoes for the first time, bear in mind that our shoes have a comfortable fit. We therefore recommend choosing half a size smaller than your customary size.

AERANTIS™

A tried-and-tested air-circulation system around the foot activated by movement and optimized by the materials used.

Aerantis™ is the essence of technology and boasts cutting-edge solutions that allow the shoe to breathe for an amazing sensation of well-being. The groundbreaking Ventilation System works just like a powerful engine which, prompted by movement, steps up the internal air circulation and facilitates breathability all around the foot. It works in conjunction with the Inner Breathing System, a special interior lining which optimizes breathability and heat dispersion, and the Net Breathing System, which ensures that hot air from the inside is replaced with cool air from the outside thanks to the sole's broad perforated and breathable surface area.

The classic Geox rubber sole is based on an exclusive patent: the combination of the perforated sole and the resistant breathable and waterproof membrane allow for natural temperature regulation, thereby creating the perfect microclimate inside the shoe that keeps feet dry and comfortable for the whole day.

NEBULA™

The concept of breathability has evolved thanks to the lining with cavities, large perforations on the sole and breathable membrane.

Nebula™ is a versatile sneaker with a proactive on-trend vibe. A complete all-rounder, it will stand you in excellent stead from desk to dinner and is well suited to the office and leisure time pursuits but no less to travelling. Enhanced with Geox's signature breathability, the patented outsole facilitates the natural thermo-regulation of the foot, ensuring health and a sensation of well-being. Nebula™ has been set on a light outsole made from flexible cushioning EVA. The tread has been fitted with three-dimensional rubber inserts to optimize grip and durability whilst the wide toe box offers lasting comfort. The lining and mounting insole in 3D mesh boost breathability and the cushioning effect even more.

These shoes owe their extraordinary breathability to the GEOX Net Breathing System: the technology developed and designed in collaboration with professional pilots who have won the world championship. The maxi-holes guarantee outstanding breathability.

The maximum water resistance of the sole is guaranteed by a membrane that prevents water from getting in. What's more, an additional layer made up of a special protective material guards the foot, without compromising on breathability.

This technology has been designed to withstand even the most intense level of activity and to provide maximum day long comfort, even in the more extreme of temperatures.

AMPHIBIOX™

Dry feet whatever the weather thanks to the waterproof breathable membrane which also extends to the top of the foot.

Amphibiox™ features advanced waterproof technology from the world of professional outdoor wear hidden in the form of a fashionable shoe. Be ready for everything the city throws at you, with Amphibiox™, the perfect footwear choice for any condition. Amphibiox™ is top of the range in terms of Geox's waterproof products. It stands out from other waterproof shoes by employing the use of Geox's pioneering waterproof and breathable sole, pairing it with a series of innovative technologies (including some of Geox's own patents) on the upper, in order to achieve durable water resistance and breathability.

The special Amphibiox™ membrane protects against rain, mud and snow, leaving your foot completely dry. The high breathability helps with natural internal temperature regulation, removing moisture from the shoe and guaranteeing freshness or warmth depending on the external temperature. These shoes feature a thermal lining that can protect against even the harshest temperatures. GEOX technology at the service of comfort and practicality.
