

Middle School Social Studies

6th Grade Social Studies throughout the year, they learn many things in World History such as...culture, time, change, people, places, environments, individual development and identity, groups, institutions, power, authority, governments, production, distribution, consumption, science, technology, society global connections, and many religions and cultures.

7th Grade Social Studies includes both the History of New Mexico and World History. In New Mexico history the students will explore it's story from it's first inhabitants, to its beautiful geography. We will explore NM as a territory and as a state.

We will also look at its government and economy. In the second semester the students will examine World History. It will include a History of The World, in its early ages. Students will travel through Mesopotamia and Ancient Egypt. They will learn about the Israelites, Ancient Greeks, the Romans and the Rise of Christianity.

8th Grade Social Studies, by the end of the year students should have knowledge of and appreciation for the development, growth, mistakes and achievements of the United States. They will understand the uniqueness of our government and economic principles and their global impact.
